

SEWER VS. STORM DRAIN

DO YOU KNOW THE DIFFERENCE?

Not all water in Orange County is treated the same...in fact, some water isn't treated at all. Rain and water from sprinklers and hoses wash litter, pet waste, motor oil, pesticides and other pollutants into the storm drain where it flows untreated into our creeks, rivers, bays and ultimately, our ocean. Only water that enters the sewer (from sinks and toilets) is treated before entering our waterways. **SO DON'T TREAT THEM THE SAME.**
