## 1.0 SUMMARY

This report presents the results of Phase I Environmental Site Assessment (ESA) of 16800 Magnolia Street, 9025 Recreation Circle, and 9063 Recreation Circle in Fountain Valley, California (the Site) prepared by Northgate Environmental Management, Inc. (Northgate) on behalf of Wactor & Wick LLP and its client Holland Acquisition Co., LLC (Holland). The Site consists of approximately seven acres of land covering five parcels identified as Assessorôs Parcel Numbers (APNs) 143-294-01, 143-294-02, 143-301-31, 143-301-32, and 143-301-37 in Orange County. The Site is developed with the remains of an abandoned amusement park that included a pool for bumper boats, a go-kart track, a miniature golf course, batting cages and other amusement park features, along with concrete and asphalt-paved parking lots. A Site Location Map is shown on Figure 1 and a Site Plan is shown on Figure 2. Northgate understands that Holland intends to purchase the Site and plans to construct a mixed-use development consisting of two buildings on the Site with a combination of commercial and residential on the main floor with four stories of residential above and associated parking. .

According to historical sources, the Site consisted of vacant agricultural land with one or more small rural ranch complexes from at least 1938 through the early 1970s when the northern portion of the Site was developed with a miniature golf course. The Site was fully developed as an amusement park containing bumper boats, a go-kart track, batting cages, kiddie-rides and other amusements by 1987 and operated as an amusement park through about 2017. The Site is currently vacant.

The Site is listed on a variety of regulatory agency databases related to the historic use, storage, and release of hazardous materials. However, none of the database listings are active.

Northgateôs review did not identify any off-Site contamination source that would likely impact the Site with the possible exception of a former dry cleaner facility located directly south of the Site across Recreation Circle.

In summary, Northgate has performed a Phase I ESA of 16800 Magnolia Street , 9025 Recreation Circle, and 9063 Recreation Circle in Fountain Valley, California in conformance with the scope and limitations of ASTM Practice E 1527-13 and the standards and practices of the All Appropriate Inquiry ï Final Rule (40 Code of Federal Regulations Part 312). Any exceptions to, or deletions from, these practices are described in Section 2.3 of this report. This assessment revealed no evidence of Recognized Environmental Conditions (RECs) in connection with the property, except for the following:

- Soil vapor testing performed at the Site in 2017 indicated the presence of chloroform in soil vapor on the southwest portion of the Site at concentrations of 245 - 859 micrograms

per cubic meter (Õg/$m^3$) which exceeds the United States Environmental Protection Agency (USEPA) screening level for residential land use of 4.1 Õg /m3. As the likely source of the chloroform was thought to be chlorine chemicals for a bumper-boat pool operated at that location which is no longer in operation, chloroform in soil vapor could be expected to dissipate over time. However, current subsurface conditions at the Site are not known, and chloroform in soil vapor could potentially impact future redevelopment of this portion of the Site.

Northgate identified the following Controlled Recognized Environmental Condition (CREC) at the Site:

- The Site received regulatory closure for a remediated release related to a former gasoline UST under the oversight of the Orange County Health Care Agency (OCHCA), which requires that the agency be notified of any future change in land use.

## 2.0 INTRODUCTION

This report presents the results of Phase I ESA of 16800 Magnolia Street, and 9025 and 9035 Recreation Circle in Fountain Valley, California prepared by Northgate on behalf of Wactor & Wick LLP and its client Holland. The Site consists of approximately seven acres of land covering five parcels identified as APNs 143-294-01, 143-294-02, 143-301-31, 143-301-32, and 143-301-37 in Orange County. The Site currently contains the remains of an abandoned amusement park that included a pool for bumper boats, a go-kart track, a miniature golf course, batting cages and other amusement park features along with concrete and asphalt-paved parking lots. A Site Location Map is shown on Figure 1 and a Site Plan is shown on Figure 2. Northgate understands that Holland intends to purchase the Site and construct a mixed-use development.

### 2.1 Purpose

The purpose of Phase I ESA has been to identify and evaluate the presence of RECs at the Site. The term ñRECsò means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. The term is not intended to include de minimus conditions that generally do not present a material risk of harm to public health or the environment, and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

### 2.2 Scope of Services

Northgate has performed the ESA in general conformance with the scope and limitations of ASTM E-1527-13, *Standard Practices for Environmental Site Assessments: Phase I Environmental Site Assessment Process* and 40 Code of Federal Regulations (CFR) Part 312, *Standards and Practices for All Appropriate Inquiry – Final Rule ("ASTM Standard").* This investigation was performed by environmental professional Dennis Laduzinsky, Associate Geologist, with assistance from Josh Kajiyama, Staff Geologist. The scope of work for the investigation included the following services:

- Review of readily available information regarding the history of the Site, including historic aerial photographs, maps, previous reports, and other information, and discussions with individuals familiar with the Site;
- Review of a title report for the Site provided by the Users;
- A reconnaissance of the Site and near vicinity;

- Discussions with regulatory officials and review of regulatory agency publications and files, as applicable;
- Evaluation of potential RECs, development of conclusions and a scope of work to evaluate potential on-Site contamination concerns; and
- Preparation of this report.

## 2.3 Limitations and Exceptions

### *2.3.1 Limitations*

The purpose of an environmental assessment is to reasonably evaluate the potential for RECs arising from past practices on a given site area. In performing an environmental assessment, it is understood that a balance must be struck between a reasonable inquiry into the environmental issues and an exhaustive analysis of each conceivable issue of potential concern. No investigation is thorough enough to absolutely rule out the presence of hazardous materials at a given site. If hazardous conditions have not been identified during the assessment, such a finding should not be construed as a guarantee of the absence of such materials on the Site, but rather as the result of the services performed within the scope, limitations, and cost of the work performed.

Environmental conditions may exist at the Site that cannot be identified by visual observation. Where subsurface work was performed, our professional opinions are based in part on interpretation of data from discrete sampling locations that may not represent actual conditions at un-sampled locations.

Except where there is express concern of our client, or where specific environmental contaminants have been previously reported by others, naturally occurring toxic substances, potential environmental contaminants inside buildings, or contaminant concentrations that are not of current environmental concern may not be reflected in this document.

Where the scope of services is limited to interview and/or review of readily available reports and literature, any conclusions and/or recommendations are necessarily based largely on information supplied by others, the accuracy or sufficiency of which may not be independently reviewed by Northgate.

Any opinions and/or recommendations presented apply to Site conditions existing at the time of performance of services. We are unable to report on, or accurately predict, generally unforeseeable events that may impact the Site following performance of services, whether occurring naturally or caused by external forces. Therefore, we cannot assume responsibility for

such events or their impact. We also cannot assume responsibility for changes in environmental standards, practices, or regulations.

### *2.3.2 Exceptions*

The time intervals between some historical information sources may exceed five years due to the unavailability of such records. However, in our opinion, this data gap does not significantly impact our ability to evaluate historic land use conditions at the Site given the availability of other sources for this information.

At the time this report was prepared, no response has been received regarding Northgateôs request to receive or review Fountain Valley building department records for the 9025 and 9063 Recreation Circle addresses. In addition, no response has been received from the Fountain Valley Fire Department to review records for 9063 Recreation Circle. This constitutes a data gap as defined in the ASTM Standard which could potentially impact our ability to evaluate environmental conditions at the Site. However, in our opinion, this data gap does not significantly impact our ability to evaluate historic land use conditions at the Site given the availability of other sources for this information. Northgate will issue an addendum to this report upon receipt of the files if information in the files changes the conclusions or recommendations provided in this report.

The Site owner also was not available for an interview regarding land use history of the Site. However, the User indicated that the current site owner has been operating it as a family fun center since the late 60ôs to early 70s. This constitutes a data gap as defined in the ASTM Standard that could potentially impact Northgateôs ability to evaluate environmental conditions at the Site. However, Northgate deems this data gap to be insignificant given the availability of other sources for this information.

There were no other limiting conditions.

## 2.4 User Reliance

This report has been prepared for the exclusive use of Wactor & Wick LLP and its client Holland (collectively User), along with their subsidiaries, affiliates, partners, and lenders in evaluating environmental conditions at the Site. Others may not use or rely on the information contained in this report without the express written consent of Northgate.

## 3.0 SITE DESCRIPTION

### 3.1 Site Location and Legal Description

The Site is located at 16800 Magnolia Street, 9025 Recreation Circle, and 9063 Recreation Circle in Fountain Valley, Orange County, California. 16800 Magnolia Street covers two parcels identified as APNs 143-294-01 and 143-294-02. 9025 Recreation Circle is located on APN 143-301-31, and 9063 Recreation Circle is located on APN 143-301-32. A subterranean storm drain channel that traverses the middle of the Site is identified as APN 143-301-37. A Site Location Map is shown on Figure 1 and a Site Plan is shown on Figure 2.

### 3.2 Site Vicinity General Characteristics

The Site currently consists of a closed amusement park located in a mixed residential and retail-commercial development area of Fountain Valley. The Site is generally bordered on the west and south by arterial streets followed by residential and commercial development. The Site is bordered along its entire eastern side by the San Diego Freeway (Interstate 405) with residential development located beyond the freeway to the east.

### 3.3 Geology and Groundwater

#### *3.3.1 Geology*

The Site is located in the southwestern area of the Coastal Plain of Orange County, which is bordered by the Chino Hills to the north, foothills of the Santa Ana Mountains to the northeast, by the San Joaquin Hills to the south, the Pacific Ocean to the southwest, and by a low topographic divide approximated by the Orange County - Los Angeles County boundary to the northwest. The Site vicinity is generally underlain by recent age alluvial deposits (ERI, 2003). The Newport-Inglewood fault zone, which is located approximately 1.3 miles southwest of the Site, parallels the coastline and generally forms a barrier to groundwater flow.

Soil borings advanced in the Site vicinity by others indicate that subsurface materials generally consist of sand and silty sand with interbeds of sandy silt and clay to a maximum depth of 50.5 feet below ground surface ([bgs], ERI, 2003).

#### *3.3.2 Groundwater*

The Site is located within the Pressure Area or southern half of the Orange County Groundwater Basin (Basin). The Basin is composed of the Upper, Middle, and Lower Aquifer Systems (CDWR, 2004). The Upper Aquifer System includes the alluvium, stream deposits, and Upper

Pleistocene deposits represented by the La Habra Formation (CDWR, 2004). In the northwest and coastal areas, the Upper Aquifer System contains a lower percentage of water-bearing strata where clays and clayey silts dominate (CDWR, 2004). The Middle Aquifer System includes the Coyote Hills and San Pedro Formations which have an average thickness of 1,600 feet and primarily consist of sand and gravel. The Middle Aquifer System provides approximately 90 to 95 percent of the groundwater for the Basin (CDWR, 2004). The Lower Aquifer System includes the Upper Fernando Group, which is composed of sand and conglomerate.

The Pressure area is composed of shallow, semi-perched, water-bearing zones that are collectively referred to as the Semi-Perched Aquifer and are separated from the deeper aquifers by low permeability clays and silts (ERI, 2003). The Talbert Aquifer occurs beneath these low permeability sediments and is composed of sand and gravel deposited from the ancestral Santa Ana River (ERI, 2003). The Talbert Aquifer is estimated to occur at approximately 50 to 60 feet bgs in the Site vicinity (ERI, 2003).

Information from subsurface investigations performed at the Site have encountered groundwater at depths of about 8 to 10 feet bgs with a reported groundwater flow direction to the southeast (Atlas Environmental Engineering, 2018). Groundwater information reported for nearby sites indicates that first groundwater was detected at depths of approximately 12 to 16 feet bgs (Cardno, 2020). Regional groundwater flow in the basin is variable toward the south, southwest, and southeast. However, local groundwater flow in the Semi-Perched Aquifer is to the northeast (Cardno, 2020). The closest water supply well is HB-9 (State Well Number 05S/11W-24R04), which is located approximately 850 feet west of the Site (ERI, 2003).

## 3.4 Current Use of the Property

The Site is currently developed with a closed amusement park. The northern, eastern, and southern boundaries are fenced. The western boundary is not fenced with public access along Magnolia Street.

## 3.5 Description of Structures, Roads, Sewage, and Potable Water Sources

The 16800 Magnolia Street parcels comprise the majority of the former amusement park and are developed with a miniature-golf course a go-kart track and asphalt-paved parking lots. 16800 Magnolia Street is accessed by vehicle via Magnolia Street. 9025-9063 Recreation Circle comprises the southern portion of the Site and is developed with batting cages, an empty pool and a concrete-paved parking lot. This portion of the Site is accessed by vehicle via Recreation Circle.

Four building structures are present on the Site. Two buildings are located in the southwestern corner of the Site, one is located in the southeastern corner of the Site, and one is located in the northern portion of the Site. The buildings appear to be wood-frame construction on concrete slab foundations. Since the Site is abandoned and public access has not been restricted (Site is accessible via Magnolia Street), the structures are heavily vandalized as is the rest of the Site. The Site features are in a dilapidated state.

Sewer and water services in the area are provided by the City of Fountain Valley.

### 3.6 Current Uses of Adjoining Properties

The Site is located in an area of mixed commercial/retail and residential development. The Site is bordered to the north and east by Interstate 405, beyond which are single-family residences. The Site is partially bordered to the east by Fountain Valley Skating Center at 9105 Recreation Circle, beyond which is Motel 6 at 9125 Recreation Circle, Floor & D®cor at 9065 Warner Avenue, Interstate 405 and then single-family residences. The Site is bordered to the south by Recreation Circle, beyond which is the parking lot for Floor & D®cor and Original Tommyôs World Famous Hamburgers at 9024 Recreation Circle, Fountain Valley Hand Car Wash at 9063 Warner Avenue, and Starbucks at 9025 Warner Avenue. The Site is bordered to the west by Magnolia Street, beyond which is Bridgecreek Plaza at 8907 Warner Avenue and Sendero Huntington Beach Apartments at 8945 Riverbend Drive.

## 4.0 USER PROVIDED INFORMATION

### 4.1 Environmental Liens or Activity and Use Limitations

Northgate reviewed a Commitment for Title Insurance prepared for the 16800 Magnolia Street (APNs 143-291-01, -02), 9025 Recreation Circle (APN 143-301-31), and 9063 Recreation Circle (APN 143-301-32) prepared by First American Title Insurance Company on March 11, 2021 provided by the User. No environmental liens or activity and use limitations of record as defined in the *ASTM Standard* related to environmental conditions were noted in the title reports or the Environmental Data Resources, Inc. (EDR) report. A copy of the Title Commitment is attached in Appendix A.

### 4.2 Valuation Reduction for Environmental Issues

An information questionnaire completed by Mr. Ryan Guthrie, Development Director with Holland Partner Group indicates that the Site's purchase price reasonably reflects the fair market value of the property with no reduction for environmental issues. A copy of the questionnaire is attached in Appendix B.

### 4.3 Owner, Property Manager, and Occupant Information

Information presented in the Commitment for Title Insurance attached in Appendix A indicates that title to the Site is vested in John M. Huish, as Trustee of the James W. Huish Testamentary Trust; John M. Huish, as Trustee of the ñThe Huish Land Trustò dated May 24, 1984; Richard Court Huish, Trustee of the Carolyn B. Huish Childrenôs Trust; Scott R. Huish and Shane F. Huish, as Co-Trustee of the Huish 3P2k Trust, dated February 11, 2021, Trust ñAò.

### 4.4 Specialized Knowledge

An interview questionnaire completed by Mr. Ryan Guthrie, Development Director for Holland Partner Group indicates that he has been associated with the Site for about three months. Mr. Guthrie has no knowledge of any hazardous materials spills or releases, environmental liens, litigation, or other issues potentially related to soil or groundwater contamination or environmental conditions at the Site. Mr. Guthrie is aware that a UST had been removed from the Site under the oversight of the OCHCA. A copy of the questionnaire is provided in Appendix B.

## 4.5 Reason for Performing the Phase I ESA

Northgate understands that the User intends to purchase the Site and develop a new mixed-use project, and that this Phase I ESA is being conducted as part of the commercial real estate purchase due diligence process.

## 5.0 RECORDS REVIEW

### 5.1 Standard Environmental Record Sources

To determine if the Site has any documented environmental concerns, or if other sites with documented environmental concerns exist within the search radii of the Site prescribed by ASTM 1527-13 and *All Appropriate Inquiry* standards, Northgate reviewed a summary of regulatory agency database listings prepared by EDR. In addition, where appropriate, we reviewed local regulatory agency files for additional specific information regarding sites identified in the EDR report judged to be of possible concern to the subject Site. The EDR report presenting a summary of the agency databases reviewed and a map showing the location of the identified sites is provided as Appendix C (EDR, 2021a). The results of the database search and follow-up agency file review are summarized below.

#### *5.1.1 Site*

The Site is listed on a number of regulatory agency databases related to the use, storage, and release of hazardous materials under listings for the Boomers Fountain Valley Family Fun Center at 16800 Magnolia Street and 9063 Recreation Circle. Regulatory database listings for the Site are summarized below and in Table 1.

Regulatory database listings for 16800 Magnolia Street referenced in the EDR Report (Appendix C) include listings on the HAZNET, HWTS, CERS HAZ WASTE, CERS and RCRA NonGen / NLR databases. Information in the EDR Report indicates that hazardous materials use at the Site included oils, waste oils, aqueous solutions with <10% organic residues from 1989 ï 2019. According to the EDR Report, chemical use at the Site also included halogenated solvents and liquids with halogenated organic compounds > 1,000 milligrams per liter (mg/l) from 2002 ï 2004.

Regulatory database listings for 9063 Recreation Circle include listings on the RGA LUST, LUST, CORTESE, CERS, SWEEPS UST and CA FID UST databases. The majority of these database listings are related to the former presence of underground and aboveground storage tanks (USTs, ASTs) used to store gasoline for fueling bumper boats operated in a large pool at the Site. Additional information regarding the investigation and remediation of subsurface contamination related to a release from the UST is presented in Table 1.

There are no regulatory database listings for 9025 Recreation Circle.

# TABLE 1
## Site Regulatory Database Listings

| EDR Site # | Facility Name And Address | Regulatory Database | Information in EDR Report |
|---|---|---|---|
| A1, A2, A3, A4, A5, A6, A7 | Fountain Valley M<br>Boomers Fountain Valley<br>Family Fun Center<br>16800 Magnolia Street | HAZNET, HWTS<br>CERS HAZ WASTE, CERS<br>RCRA NonGen / NLR | Information in the EDR report indicates the Site is listed as a hazardous waste generator related to off-Site disposal of waste oil, mixed oils, aqueous solutions with <10% organic residues, off-spec, aged, or surplus organics, and bulk chemical storage with empty containers of 30 gallon or more for various years from 1989 ï 2019. Chemical storage records include unspecified solvent mixtures, and halogenated solvents (chloroform, methylene chloride, perchloroethylene, etc.), in 1998, liquids with halogenated organic compounds >= 1,000 mg/l from 2002 ï 2004. Inspections variously performed by the Fountain Valley Fire Department (FVFD) and Orange County Healthcare Agency (OCHCA) reference oil wastes from go-cart maintenance. |
| A8, A9, A10, A12, A13, A15 | Family Fun Center<br>9063 Recreation Circle | RGA LUST, LUST, Cortese, CERS, SWEEPS UST, CA FID UST | The Site is listed on the LUST database with a remediated release under OCHCA oversight and received an OCHCA regulatory closure on 2/26/2019.<br>Information available on the State Water Resources Control Board (Water Board) GeoTracker website indicates that subsurface contamination was discovered at the Site in December 1998 during removal of a 2,000-gallon gasoline UST used for fueling bumper boats. Soil samples collected beneath the UST and a fuel dispenser at that time contained total petroleum hydrocarbons as gasoline (TPHg) at 2,988 milligrams per kilogram (mg/kg), with benzene, toluene, ethylbenzene, and xylenes (or BTEX) reported at 0.155 mg.kg, 2.64 mg.kg, 2.73 mg/kg, ad 3.50 mg/kg, respectively. Methyl tert-Butyl Ether (MTBE) was reported at 0.33 mg/kg.<br>Environmental investigations performed between 1999 and 2007 indicated that a primary contamination source area near the fuel dispenser, with the highest concentrations of TPHg, BTEX, and MTBE detected in soil samples at depths of 4 to 14 feet bgs. Site assessment activities included drilling three soil borings to depths of 15 to 30 feet bgs, one hand-auger boring to 13 feet bgs, installing 10 groundwater monitoring wells to depths of 25 feet bgs, two confirmation borings to 5 feet bgs, and installing three soil vapor probes to depths of 5 feet bgs. |

| EDR Site # | Facility Name And Address | Regulatory Database | Information in EDR Report |
|---|---|---|---|
| | | | Site remediation activities conducted between 2006 and 2013 consisted of an 8-hour high-vacuum dual-phase extraction (DPE) pilot test and groundwater over-purging events. According to the OCHCA UST Case Closure Summary Form, the DPE pilot test only removed < 0.5 lbs. of hydrocarbons from soil vapor and approximately 497 gallons of groundwater, indicating a lack of hydrocarbons in the vadose zone. Weekly groundwater over-purging using three select monitoring wells was performed between October 2010 and March 2013 using a mobile extraction and treatment unit, resulting in the removal of about 24,220 gallons of impacted groundwater.<br><br>Soil samples collected at depths of 2 and 5 feet bgs from two confirmation borings advanced to a depth of 5 feet bgs near the former dispenser contained up to 2,500 mg/kg TPHg and less than 1 mg/kg benzene and toluene and less than 2 mg/kg MTBE. Ethylbenzene and toluene were reported in the samples at 17 and 23 mg/kg, respectively. Naphthalene was reported at 38.4 mg/kg, and 1,3,5-trimethylbenzene was reported at 11.4 mg/kg. The OCHCA concluded that overall, residual hydrocarbon contamination in soil is localized near the former dispenser area below an equipment storage shed on the Site. According to the OCHCA, the residual contamination reportedly decreases with depth indicating that soil contamination is not migrating vertically and does not appear to pose a significant threat to groundwater, and thus not cost-effective to demolish the shed in order to remove residual contamination.<br><br>Groundwater initially contained TPHg up to 26,700 micrograms per liter (µg/l), with BTEX reported at maximum concentrations of 135, 716, 506, and 825 µg/l, respectively. MTBE was reported at 11,600 µg/l. The dissolved hydrocarbon contamination plume extended east-southeast of the fuel dispenser area. Free product was not reported in wells at the Site. In October 2017, groundwater at the Site contained <100 µg/l TPHg, with BTEX <1 µg/l, and MTBE reported at 6.0 µg/l (Atlas, 2017a). The OCHCA Case Closure Summary concluded that overall, post-remedial monitoring results show that the core of the hydrocarbon plume has reduced in concentration, residual dissolved-phase hydrocarbon concentrations detected in Site wells low, and the plume is stable and generally decreasing over |

| EDR Site # | Facility Name And Address | Regulatory Database | Information in EDR Report |
|---|---|---|---|
| | | | time. The OCHCA concluded that the Site is not expected to impact the closest receptors due to low contaminant concentrations in groundwater.<br><br>In August 2017, a soil vapor survey was performed consisting of collecting vapor samples from three vapor wells installed at depths of 2 and 5 feet bgs in the immediate vicinity of the former UST (Atlas, 2017b). Samples were analyzed for volatile organic compounds (VOCs), fuel oxygenates, and polyaromatic hydrocarbons (PAH). The vapor samples collected during the survey contained dibromochloromethane up to 10 µg/$m^3$, chloroform at 245 - 859 µg/$m^3$, toluene at 155 µg/$m^3$, 4-isopropyltoluene at 19 ï 104 µg/$m^3$, 1,2,4-trimethylbenzene at 18 µg/$m^3$, and naphthalene at 1.1 ï 7.7 µg/$m^3$, respectively. Benzene, ethylbenzene, and MTBE were not reported in any of the vapor samples. According to OCHCA, the reported naphthalene concentration did not exceed the Low Threat Closure Policy soil gas criteria for residential or commercial land use and did not appear to result in a risk from vapor intrusion to adjacent buildings. A Site-specific health risk evaluation performed by Atlas using the maximum detected concentrations of all detected VOCs except chloroform (which was not related to the gasoline release) reportedly produced a non-cancer cumulative Hazard Index of 2.1E-03 (below the generally acceptable Hazard Index of 1) and a cumulative incremental lifetime cancer risk of 1E-06 (one in one million). Chloroform was reported in soil vapor samples in excess of the 4.1 µg/$m^3$ screening level for residential land use established by the USEPA.<br><br>The OCHCA Case Closure Summary identifies current land use as a miniature golf/amusement park with no anticipated plans to change the property use at that time. The Closure Summary states that Site conditions should be reviewed if land use changes in the future. |
| A16, A17 | Family Fun Center<br>9063 Recreation Circle | HAZNET, HWTS, FINDS | Facility listed as a hazardous waste generator of oil and mixed oils in 1998 and 1999. |
| A11, A14 | Lake Overflow<br>9063 Recreation Circle | CIWQS, FINDS | NPDES permit for stormwater discharge from 1987 with no noted expiration date. |

### *5.1.2 Off-Site Sources*

The regulatory agency database search prepared by EDR indicates the presence of 142 database listings for properties located within an approximate one-mile radius of the Site. The EDR database report containing a list of the agency databases searched is attached in Appendix C. Sites with documented releases impacting groundwater located within about 0.25-mile upgradient of the Site, or otherwise judged to be of potential impact to soil, soil vapor, or groundwater quality at the Site, are summarized in the following Table 2.

# TABLE 2
# Off-Site Sources

| Property Name | Agency Database | Location Relative to Site | Potential Environmental Concern |
|---|---|---|---|
| Former Vanderupwich Property / Hermanôs Auto Service / Former Independent Development Company, 9025 Warner Avenue | LUST, HIST UST, Cortese, CERS | 150 feet south (downgradient) of the Site across Recreation Circle | The property is listed as a closed LUST site with a regulatory closure date of May 5, 2012 located on the northeast corner of the intersection of Warner Avenue and Magnolia Street. Based on the closed regulatory status, relatively low levels of residual hydrocarbon contamination and downgradient location relative to the Site, it is Northgateôs opinion that the facility does not represent a significant potential to impact soil, soil vapor, or groundwater quality at the Site. |
| Joyôs 2 Hour Cleaners Genesis Dry Cleaners 9025 Warner Avenue | Drycleaners, RCRA-SQG, FINDS | 125 feet south (downgradient) of the Site across Recreation Circle | The facility is listed on the EDR Drycleaners database as a dry cleaning facility using PCE in a closed-loop system from 1993 through 2011 located due south of the Site across Recreation Circle. There is no reported release at the facility and no regulatory requirements for investigation or other action. However, soil vapor sampling performed on the property associated with investigation and remediation of a petroleum hydrocarbon release (see LUST database listing for Vanderupwich property above) indicated the presence of elevated levels of PCE in soil vapor adjacent to the building on the northern portion of the property upgradient of the former UST location. The Case Closure Summary issued by the OCHCA for the Vanderupwich LUST case states that the PCE reported in soil vapor at the facility likely originates from the dry cleaner operation in the building.<br><br>Given the elevated levels of PCE reported in soil vapor on the northern portion of the property and the relatively close proximity of the facility to the Site (about 125 feet downgradient) it is Northgateôs opinion that likely PCE releases from the dry cleaner could potentially impact soil vapor beneath the subject Site.<br><br>It should be noted that soil vapor samples collected on the southerly portion of the subject Site in 2017 at a location about 300 feet north of the Joyôs cleaners facility did not contain PCE above the laboratory reporting limits.<br><br>It is Northgateôs opinion that the Joyôs facility could pose a potential impact to soil vapor quality at the subject Site. |
| Unocal / Jiffy Lube Chevron 8971 Warner Avenue | LUST, CA FID UST, RCRA NonGen-NLR, Cortese, HAZNET, CERS, HWTS, AST | 250 feet southwest (downgradient) of the Site across Magnolia Street | The facility is listed as a closed LUST site with a regulatory closure date of April 24, 2015 located on the northwest corner of the intersection of Warner Avenue and Magnolia Street, downgradient of the subject Site. It is Northgateôs opinion that based on closed regulatory status, the distance and downgradient location, the facility does not represent a significant potential impact to soil, soil |

# TABLE 2
## Off-Site Sources

| Property Name | Agency Database | Location Relative to Site | Potential Environmental Concern |
|---|---|---|---|
| | | | vapor, or groundwater quality at the Site. |
| Floor & D®cor<br>Malibu Grand Prix<br>9065 Warner Avenue | HIST UST, CERS, CERS HAZ WASTE, HWTS | 200 feet south (downgradient) to 420 feet southeast (lateral-gradient) of the Site | SWRCB records for the property show 10,000-gallon USTs for gasoline installed at the Malibu Grand Prix facility in 1965 and 1975. The location and current status of the USTs is not known. However, historic aerial photographs suggest that a likely location for the USTs would be about 200 feet south of the Site across Recreation Circle.<br>The current Floor & D®cor occupant of the property is listed as a hazardous waste generator of organic sludge wastes and off-specification organics. There are no reported hazardous material releases at the facility. The facility building is located about 420 feet southeast of the Site.<br>Given the absence of a reported release and the distance and lateral gradient location, it is Northgateôs opinion that the facility does not represent a significant potential impact to soil, soil vapor, or groundwater quality at the Site. |
| Mobil / Circle K<br>9024 Warner Avenue | LUST, CERS HAZ WASTE, CERS Tanks, CERS, HWTS | 400 feet south (downgradient) of the Site | The site is listed as a closed LUST case with a regulatory closure date of September 15, 2016 located on the southeast corner of the intersection of Warner Avenue and Magnolia Street.<br>Given the closed regulatory status, the distance and downgradient location, it is Northgateôs opinion that the facility does not represent a significant potential impact to soil, soil vapor, or groundwater quality at the Site. |
| Exxon<br>8980 Warner Avenue | LUST, CERS HAZ WASTE, CERS Tanks, CERS, HWTS, Cortese, SWEEPS UST, RCRA NonGen / NLR | 455 feet southwest (downgradient) of the Site | The site is listed as an open, active LUST case located on the southwest corner of the intersection of Warner Avenue and Magnolia Street. The site is an active gasoline service station. Based on the distance of over 400 feet downgradient, it is Northgateôs opinion that subsurface conditions at the facility do not represent a significant impact to soil, soil vapor, or groundwater quality at the Site. |
| S&K Greenhouse<br>16811 Magnolia Street | Hist UST | 150 ï 300 feet west (downgradient) of the Site | Information in the EDR Report (Appendix C) indicates that the facility operated four USTs for diesel and gasoline. SWRCB records for the site show two 1,000-gallon USTs for gasoline and one 30,000-gallon UST for diesel all installed in 1977. The current status of the USTs is not known. However, the property is now |

# TABLE 2
## Off-Site Sources

| Property Name | Agency Database | Location Relative to Site | Potential Environmental Concern |
|---|---|---|---|
| | | | developed with residential developments and a public storage facility.<br>Given the absence of a reported release and its downgradient location, it is Northgateôs opinion that the facility does not represent a significant potential to impact soil, soil vapor, or groundwater quality at the Site. |

## 5.2 Vapor Encroachment Screening

Northgate performed a vapor encroachment screening (VES) evaluation using EDRôs vapor encroachment condition application (VEC App), which assists in screening for vapor encroachment risk in accordance with ASTM E2600 ñStandard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions.ò A ñTier Iò VES was performed to evaluate the potential for vapors associated with contaminated soil and/or groundwater to impact the Site, whether originating from the Site or from nearby off-Site sources. For properties where a VEC could not be ruled out, existing subsurface investigation reports, if available, were used to evaluate potential impacts to the Site (Tier 2 screening). The table below presents a summary of the VES findings. A copy of the VES report is attached in Appendix D (EDR, 2021b).

| **Potential for Vapor Intrusion on Site** | |
|---|---|
| *Areas of Concern* | *Conclusion* |
| Site (existing land use) | VEC not identified. |
| Site (former land use) | VEC identified related to chloroform in soil vapor near a former pool on the Site. |
| Adjoining Property or near-by Property Operations or Existing Conditions | VEC not identified. |
| Historical Uses of Adjoining Property or Near-by Properties | Potential VEC identified related to former dry cleaner located across Recreation Circle to the south. |

Northgateôs review indicates that a VEC may be present at the Site related to the presence of chloroform reported in soil vapor above the USEPA screening levels for residential land use in samples collected on the southwest portion of the Site in 2017. Northgateôs review also identified a potential VEC related to elevated levels of PCE reported in soil vapor at a former dry cleaner facility located directly across Recreation Circle from the southwest corner of the Site.

## 5.3 Additional Environmental Record Sources

Northgate contacted local regulatory agencies for information regarding the use or storage of hazardous materials at the Site, and reviewed files at any agency maintaining a file for the subject Site. The following agencies were contacted for information regarding the use or storage of hazardous materials at the Site:

- CalEPA Regulated Sites Website;
- Department of Toxic Substances Control (DTSC) EnviroStor Website;
- State Water Resources Control Board (SWRCB) GeoTracker Website;
- Santa Ana Regional Water Quality Control Board (SA RWQCB);

- Orange County Health Care Agency (OCHCA);
- Orange County Fire Department (OCFD)
- Fountain Valley Building and Safety Division (FVBSD);
- Fountain Valley Fire Department (FVFD);
- South Coast Air Quality Management District (SCAQMD);
- California Department of Conservation Geologic Energy Management Division (CalGEM);
- California Department of Health Services Radon Database

The results of our review are described in the following sections.

#### *5.3.1 CalEPA Regulated Sites Website*

9063 Recreation Circle is listed as a Leaking Underground Storage Tank Cleanup Site under the oversight of the RWQCB. The leak investigation started on 12/01/1998 and after remediation, the file was closed on 02/26/2019 with regulatory closure from OCHCA.

16800 Magnolia Street and 9025 Recreation Circle were not listed on the CalEPA website.

#### *5.3.2 DTSC EnviroStor Website*

None of the Site addresses are listed on the DTSC EnviroStor website.

#### *5.3.3 SWRCB GeoTracker Website*

9063 Recreation Circle is listed as a closed LUST cleanup site with information presented in environmental investigation reports related to the release available on the GeoTracker website is discussed in Section 5.1.1 and in Table 1 above.

16800 Magnolia Street and 9025 Recreation Circle were not listed on the GeoTracker website.

#### *5.3.4 Santa Ana RWQCB (SA RWQCB)*

Northgate contacted the SA RWQCB for information on the Site and was informed that all relevant documents for 9063 Recreation Circle are located on GeoTracker. They also confirmed there are no files for the 16800 Magnolia Street or 9025 Recreation Circle addresses.

#### *5.3.5 Orange County Health Care Agency*

The OCHCA maintains records for 16800 Magnolia Street that includes:

- Hazardous waste generator permit in 2017 for waste oil at the go-kart maintenance area.

- Inspection records for waste tire management. No violations listed.
- Inspection record from 2016 indicating that all hazardous waste containers were properly stored and labeled, no evidence of spills or runoff was observed, waste manifests are available, and an updated emergency plan was submitted. No violations were listed.

OCHCA Records for 9063 Recreation Circle include a number of the subsurface investigation reports available on the GeoTracker website. Information from those reports is presented where appropriate in Section 5.1.1 and in Table 1.

The OCHCA does not maintain any files for 9025 Recreation Circle.

#### *5.3.6 Orange County Fire Department*

The OCFD does not maintain records for the Site, or any property in the city of Fountain Valley, which is outside of their jurisdiction.

#### *5.3.7 Fountain Valley Building and Safety Division*

FVBSD records available for the 16800 Magnolia Street include permits from 2010 to add new footings and electrical connections to amusement park rides and to add a non-electrical underground conduit for an amusement feed ride. A 2014 heating, ventilation, and air conditioning (HVAC) inspection received a failing score. Other permits include adding a trellis, an arcade building, a haunted maze, and other general amusement park renovations.

No building records were provided for the 9025 or 9063 Recreation Circle addresses.

#### *5.3.8 Fountain Valley Fire Department*

FVFD files for 16800 Magnolia Street include a permit from 1999 to operate a construction site tank containing flammable or combustible liquids with a volume over 60 gallons. The files also contain permits from 2019 for storage and handling of over 120 gallons of flammable and/or combustible liquids, and storage of less than 60 gallons of flammable and/or combustible liquids.

Files for 9063 Recreation Circle include permits from 2019 for a 700-gallon gasoline AST near the baseball play area, a 50-gallon container of used lubricating oils near the Go-Kart Track, and 100 pounds of reclaimed rubber near the Go-Kart Track.

No response has been received regarding Northgateôs request to obtain or review files for 9063 Recreation Circle.

### *5.3.9 South Coast Air Quality Management District*

Files available on the SCAQMD online portal for 9063 Recreation Circle include a permit from 1990 to operate an amine gas treatment processes; a 1998 permit to operate a 2,000-gallon gasoline UST; permits from 1999 through 2014 to operate a 1,000-gallon gasoline AST; and a 2017 permit to operate a 1,000-gallon gasoline AST and an AST dispenser with vapor recovery system.

16800 Magnolia Street and 9025 Recreation Circle were not listed on the SCAQMD website.

### *5.3.10 California Department of Conservation Geologic Energy Management Division*

Information on the CalGEM website indicates there are no active or abandoned oil or gas wells located on the Site. The website shows a plugged dry hole located about 1,566 feet northwest of the Site on the 405 Freeway, another plugged dry hole located 2,750 feet southeast of the Site at 17099 Buttonwood Street, a plugged dry hole 4,750 feet southwest of the Site near 8778 El Lago Avenue, and a fourth plugged dry hole located approximately 5,573 feet southeast at 17816 Bushard Street. The nearest active oil and gas well is located about 1.70 miles southwest of the Site at 7801 Essex Drive.

### *5.3.11 California Department of Health Services Radon Database*

Information provided by EDR (Appendix C) indicates that the California Department of Health Servicesô (DHSõ) online list of indoor radon levels indicates that radon concentrations in none of the 56 indoor air samples collected in zip code area 92708 contained > 4 pico-curies per liter (pCi/L). According to the EDR Radius Report, the U.S. EPA radon zone for Orange County is Zone 3 (indoor average level of less than 2 pCi/L). These results indicate that radon gas does not appear to constitute a significant environmental concern at the Site.

## 5.4 Land Use History

Information on historical land use at the Sites and adjacent area was evaluated by reviewing historic aerial photographs, maps, and other documents. A summary of our investigation findings is presented below.

### *5.4.1 Aerial Photographs*

Northgate reviewed historic aerial photographs of the Sites from 1938, 1947, 1953, 1963, 1972, 1977, 1987, 1990, 1994, 2002, 2005, 2009, 2012, and 2016 obtained from EDR (EDR, 2021c).

Copies of the aerial photographs are provided in Appendix E. A summary of our aerial photograph review is presented below.

| **Year:** 1938 | **Scale:** 1ò = 500ô | **Source:** USDA |
|---|---|---|
| **Site Description:** The Site consists of vacant agricultural land for row crops. | | |
| *North:* | Agricultural land for row crops. | |
| *East:* | Agricultural land for row crops. | |
| *South:* | Agricultural land for row crops. | |
| *West:* | A roadway followed by agricultural land for row crops. | |

| **Year:** 1947 | **Scale:** 1ò = 500ô | **Source:** FAIR |
|---|---|---|
| **Site Description:** The Site appears similar to the 1938 photograph. | | |
| *North:* | Similar to the 1938 photograph. | |
| *East:* | Similar to the 1938 photograph. | |
| *South:* | Similar to the 1938 photograph. | |
| *West:* | Similar to the 1938 photograph. | |

| **Year:** 1953 | **Scale:** 1ò = 500ô | **Source:** USDA |
|---|---|---|
| **Site Description:** The Site appears similar to the 1947 photograph. A small structure is present on the west-central portion of the Site. | | |
| *North:* | Similar to the 1947 photograph. | |
| *East:* | Similar to the 1947 photograph. | |
| *South:* | Similar to the 1947 photograph. | |
| *West:* | Similar to the 1947 photograph. | |

| **Year:** 1963 | **Scale:** 1ò = 500ô | **Source:** USGS |
|---|---|---|
| **Site Description:** The Site appears similar to the 1953 photograph. | | |
| *North:* | Similar to the 1953 photograph. | |
| *East:* | Similar to the 1953 photograph. | |
| *South:* | Similar to the 1953 photograph. | |
| *West:* | Similar to the 1953 photograph. Several structures possibly associated with a ranch complex are present across the roadway at the northern end of the Site. A new street is present west of the roadway near the southern end of the Site. | |

| **Year:** 1972 | **Scale:** 1ò = 500ô | **Source:** USGS |
|---|---|---|
| **Site Description:** The northern portion of the Site is developed with an apparent miniature-golf course bordered along the south by a paved parking lot. An apparent graded drainage channel borders the parking lot along the south. The southern portion of the Site consists of vacant, possibly agricultural, land. | | |
| *North:* | The Site is bordered on the north by the San Diego Freeway (Interstate 405); an eight-lane freeway with a median strip and on- and off-ramps. A residential subdivision is present east of the freeway. | |
| *East:* | The northern portion of the Site is bordered along the east by the San Diego Freeway. The southern portion of the Site is bordered along the east by vacant, possibly agricultural land, followed by the San Diego Freeway. | |
| *South:* | Vacant, possibly agricultural land. Apparent gasoline service stations are present on each of the four corners of the intersection of Magnolia Street and Warner Avenue at distances of about 110 feet to 450 feet south and southwest of the Site. | |
| *West:* | Magnolia Street has been widened to a four-lane street. An off-ramp from the San Diego Freeway is present across Magnolia Street at the northern portion of the Site, with vacant land across Magnolia from the southern portion of the Site. | |

| **Year:** 1977 | **Scale:** 1ò = 500ô | **Source:** EDR |
|---|---|---|
| **Site Description:** The northern portion of the Site north of the graded drainage channel appears similar to the 1972 photograph. The southern portion of the Site south of the drainage channel appears to contain several new buildings and some vacant land areas that have been graded for new construction. It should be noted that the photograph is dark and individual features are difficult to discern. | | |
| *North:* | The area appears similar to the 1972 photograph. | |
| *East:* | The area east of the northern portion of the Site appears similar to the 1972 photograph. New rectangular buildings have been constructed east of the southern portion of the Site. | |
| *South:* | A new paved street borders the southern portion of the Site, with commercial development and an apparent go-kart track south of the new street. Gasoline service stations still appear present on the four corners of the intersection of Magnolia Street and Warner Avenue south west of the Site. | |
| *West:* | Magnolia Street followed by greenhouses or other large, rectangular structures and vacant graded land. | |

| **Year:** 1987 | **Scale:** 1ò = 500ô | **Source:** USDA |
|---|---|---|
| **Site Description:** The northern portion of the Site appears similar to the 1977 photograph with a miniature-golf course bordered on the south by a paved parking lot. The southern portion of the Site appears fully developed with two round structures, an apparent pool or water feature, several other structures, and a paved parking lot. The graded drainage channel bisecting the central portion of the Site from east to west appears to have been channelized underground. | | |
| *North:* | A new high-rise building is present on the area adjacent to Florida Street. The western portion of the area appears similar to the 1977 photograph. | |
| *East:* | The area appears similar to the 1977 photograph. | |
| *South:* | The area appears similar to the 1977 photograph. | |
| *West:* | The area west of Magnolia Street is fully developed with (from north to south) a freeway off-ramp, residential development, and commercial development. | |

| **Year:** 1990 | **Scale:** 1ò = 500ô | **Source:** USDA |
|---|---|---|
| **Site Description:** The Site appears similar to the 1987 photograph. | | |
| *North:* | The area appears similar to the 1987 photograph. | |
| *East:* | The area appears similar to the 1987 photograph. | |
| *South:* | The area appears similar to the 1987 photograph. The former gasoline service station on the northeast corner of Magnolia Street and Warner Avenue appears to have been replaced by a new rectangular commercial building. The other three gas stations at the intersection remain. | |
| *West:* | The area appears similar to the 1987 photograph. | |

| **Year:** 1994 | **Scale:** 1ò = 500ô | **Source:** USGS/DOQQ |
|---|---|---|
| **Site Description:** The Site appears similar to the 1990 photograph. The shape of the paved parking lot south of the miniature-golf course appears to have been reconfigured. | | |
| *North:* | The area appears similar to the 1990 photograph. | |
| *South:* | The area appears similar to the 1990 photograph. The gasoline service station on the northwest corner of the intersection of Magnolia Street and Warner Avenue appears to be vacant land. | |
| *East:* | The area appears similar to the 1990 photograph. | |
| *West:* | The area appears similar to the 1990 photograph. | |

| **Year:** 2002/2005/2009/2012/2016 | **Scale:** 1ò = 500ô | **Source: USGS /** USDA |
|---|---|---|
| **Site Description:** The Site appears similar to the 1994 photograph. | | |
| *North:* | The area appears similar to the 1994 photograph. | |
| *South:* | The area appears similar to the 1994 photograph. A new structure is present on the northwest corner of Magnolia Street and Warner Avenue in 2002. | |
| *East:* | The area appears similar to the 1994 photograph. | |
| *West:* | The area appears similar to the 1994 photograph. | |

### *5.4.2 Sanborn Maps*

No Sanborn fire insurance maps were available for the Site following a search by EDR, as shown in Appendix F (EDR, 2021d).

### *5.4.3 Topographic Maps*

Northgate reviewed historic topographic maps for the Site obtained from EDR for the years 1896, 1901, 1902, 1932, 1935, 1942, 1949, 1951, 1965, 1972, 1981, and 2012. Copies of the topographic maps are provided in Appendix G (EDR, 2021e). Information from the topographic maps is summarized below.

| | | | |
|---|---|---|---|
| **Quadrangle:** | Santa Ana | **Scale:** 1:62,500 | **Series:** 15 Minute |
| *1896, 1901:* | The Site and surrounding area are shown as vacant rural land with scattered residences and a sparse network of roads. The 1896 map shows a road bordering the Site on the south. | | |
| **Quadrangle:** | Corona | **Scale:** 1:125,000 | **Series:** 30 Minute |
| *1902:* | The Site and surrounding area are shown as vacant rural land with scattered residences and a sparse network of roads. | | |
| *1932, 1935, 1949, 1951, 1965, 1972:* | The maps from 1932 through 1951 show the Site as vacant land bordered on the west by Magnolia Street surrounded by a rectangular grid of roads with scattered residences. Maps from 1932 and 1935 show a swampy lowland located west of Magnolia Street. The 1965 map shows the Site bordered along the east by the Dan Diego Freeway with residential development beyond that. A graded drainage channel runs east-west through the center of the Site. The 1972 map shows a structure on the northern portion of the Site and increasing residential and commercial development throughout the region. Two circular structures are shown on the southern portion of the Site on the 1981 map. The Site and surrounding area are shown as undifferentiated urban land on the map from 2012 | | |

### *5.4.4 City Directories*

Northgate reviewed a summary of local city directory listings for the Site and nearby vicinity available at approximate five-year intervals from 1965 to 2014 obtained from EDR. A copy of the EDR city directory search, along with a tabular summary of the directory listings for the Site, is provided in Appendix H (EDR, 2021f).

The EDR city directory summary listings for 16800 Magnolia include listings for Golf Park Miniature Golf beginning in 1973; Fountain Valley Baseball and Miniature Golf in 1976 through 1987; Family Fun Center in 1992 and 1995; and Boomers Festival Fun Parks from 2005 through 2014. There is no listing for 16800 Magnolia in 1965.

The directory listing summary also includes a 2005 listing for Boomers Festival Fun Parks at 16922 Magnolia and for Bullwinkleôs Family Fun & Food at 16922 Magnolia in 1992 and 1995. It is not known if this represents a different property or a different address for the same property.

Directory listings for 9063 Recreation Circle include Fountain Valley Baseball and/or Family Fun Centers from 1982 through 1995. There are no listings before 1982 or after 1995.

Directory listings for properties in close proximity to 16800 Magnolia generally consist of retail commercial businesses. Directory listings in close proximity to 9063 Recreation Circle include listings for a skating center from 1982 through 2014 and a motel from 1987 through 2014.

The city directory summary also contains listings for gasoline service stations on the southeast and southwest corners of the intersection of Magnolia Street and Warner Avenue from 1965 through 2014 and on the northeast corner of the intersection from 1965 through 1995. A 2-hour dry cleaner is present on the northeast corner of the intersection from 2005 through 2014.

## 5.5 Interviews

### *5.5.1 Owner Interview*

The Site owner was not available for an interview regarding land use history of the Site. However, the User indicated that the current site owner has been operating it as a family fun center since the late 60ôs to early 70s.

### *5.5.2 Key Site Manager Interview*

As the Site is currently vacant, there is no Key Site Manager available for interview.

## 5.6 Previous Reports

Northgate is aware of the previous investigation reports for the Site available on the GeoTracker website. Information from those reports is presented where appropriate in other sections of this report. Northgate is not aware of any other previous environmental reports prepared for the Site.

## 6.0 SITE RECONNAISSANCE

Current Site conditions were observed during a reconnaissance of the Site and near vicinity by Mr. Joshua Kajiyama of Northgate on March 22, 2021. Site photographs from the reconnaissance are attached at the end of this report.

### 6.1 Methodology and Limiting Conditions

The Site reconnaissance was performed by traversing the Site on foot and the general vicinity by car. Northgate was not accompanied during the Site reconnaissance. There were no limiting conditions experienced during the Site reconnaissance.

### 6.2 General Site and Vicinity Conditions

#### *6.2.1 Subject Site*

The Site consists of three adjacent properties located at 9025 and 9063 Recreation Circle and 16800 Magnolia Street. The Site is currently developed as an amusement park, which is no longer in operation. The Site consists of concrete and asphalt-paved parking areas in the southeastern and central portions of the Site, respectively. The remaining areas of the Site are developed with buildings, a pool, batting cages, a go-kart track, and a mini-golf course. The Site is permanently closed household trash and debris was observed scattered throughout the Site, particularly within the Siteôs buildings.

A de minimis leak from a discarded one-gallon motor oil container was observed within the eastern side of the eastern batting cage. A 1,000-gallon steel AST for gasoline is present to the east of the pool in the southeastern parking lot. The tank is enclosed in a chain-link fence within a concrete secondary containment structure. The tank is assumed to be inactive based on the inactive status of the facility. No evidence of leaks or staining was observed during the Site reconnaissance.

Numerous abandoned groundwater monitoring wells were observed within the southeastern parking lot. These wells were used during a former groundwater investigation performed at the Site due to a leaking UST to the north of the observed 1,000-gallon steel AST.

Various sized containers of paint ranging from quart cans to five-gallon buckets were observed throughout the Site. Some of the containers were opened with paint observed on various objects and on the ground, including near a storm drain to the north of the southwestern building.

De minimis concrete staining was observed in areas where former amusement park equipment was staged during Boomers active operations. In general, these areas are to the north of the pool and west of the batting cages. No severe concrete cracking was observed in the vicinity of the staining.

A pool equipment/chemical building is present to the north of the pool and contains pool chemical containers and tanks in addition to subsurface equipment. The observed pool chemical container is for muriatic acid and they were observed to be empty. In addition, an unknown AST was observed in the northern area of the pool equipment/chemical room. The AST was surrounded in concrete blocks, except for the base, which was unobserved during the Site reconnaissance. The building is heavily vandalized, as are most buildings of the Site, and contains broken equipment as well as household trash and debris.

The pool at the former amusement park is located in the southern portion of the Site along Recreation Circle. The pool is empty of water but contains household trash and debris. Additionally, the pool contains paint ranging from quart cans to five-gallon buckets broken and spilled or painted over various parts of the pool.

Two steel 55-gallon drums were observed in the northeastern corner of the southeastern parking lot. These drums contained soil and were observed to be heavily weathered. Additionally, next to the 55-gallon drums is a trash bin enclosure. Within the trash bin enclosure is racing fuel and paint in five-gallon containers. No evidence of leaks or staining was observed during the Site reconnaissance.

### *6.2.2 Site Vicinity*

The Site is located in an area of mixed commercial/retail and residential development. The Site is bordered to the north by Interstate 405, beyond which are single-family residences. The Site is bordered to the east by Fountain Valley Skating Center, addressed 9105 Recreation Circle, beyond which is Motel 6, addressed 9125 Recreation Circle, Floor & D®cor, addressed 9065 Warner Avenue, Interstate 405 and single-family residences. The Site is bordered to the south by Recreation Circle, beyond which is the parking lot for Floor & D®cor and Original Tommyôs World Famous Hamburgers, at 9024 Recreation Circle, Fountain Valley Hand Car Wash, at 9063 Warner Avenue, and Starbucks, at 9025 Warner Avenue. The Site is boarded to the west by Magnolia Street, beyond which is Bridgecreek Plaza, at 8907 Warner Avenue and Sendero Huntington Beach Apartments, at 8945 Riverbend Drive.

## 7.0 PHASE I ESA CONCLUSIONS

This report presents the results of Phase I ESA of 16800 Magnolia Street, 9025 Recreation Circle, and 9063 Recreation Circle in Fountain Valley, California. The Site consists of approximately seven acres of land covering five parcels identified as APNs 143-294-01, 143-294-02, 143-301-31, 143-301-32, and 143-301-37 in Orange County. The Site is developed with the remains of a closed and abandoned amusement park.

The purpose of the investigation is to identify the potential presence of RECs at the Site. The term ñRECsò means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. The term is not intended to include de minimus conditions that generally do not present a material risk of harm to public health or the environmental, and that generally would not be the subject of an enforcement action if brought to the attention of appropriate agencies. The following REC was identified during the course of this assessment.

Soil vapor testing performed at the Site in 2017 indicated the presence of chloroform at 245 - 859 Õg/m$^3$ which exceeded the USEPA screening level for residential land use of 4.1 Õg/m$^3$. As the likely source of the chloroform was thought to be chlorine chemicals for a bumper-boats pool operated at that location, chloroform in soil vapor could be expected to dissipate over time; however, current subsurface conditions at the Site are not known.

A Controlled Recognized Environmental Condition (CREC) refers to a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. The following was identified during the course of this assessment:

- A remediated release related to a former gasoline UST was overseen and closed by the OCHCA, which requires that the agency ben notified of any future change in land use.

A Historic Recognized Environmental Condition (HREC) refers to a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. The following HRECs were identified during the course of this assessment:

- Northgate did not identify any HRECs associated with the Site.

## 9.0 ENVIRONMENTAL PROFESSIONAL STATEMENT

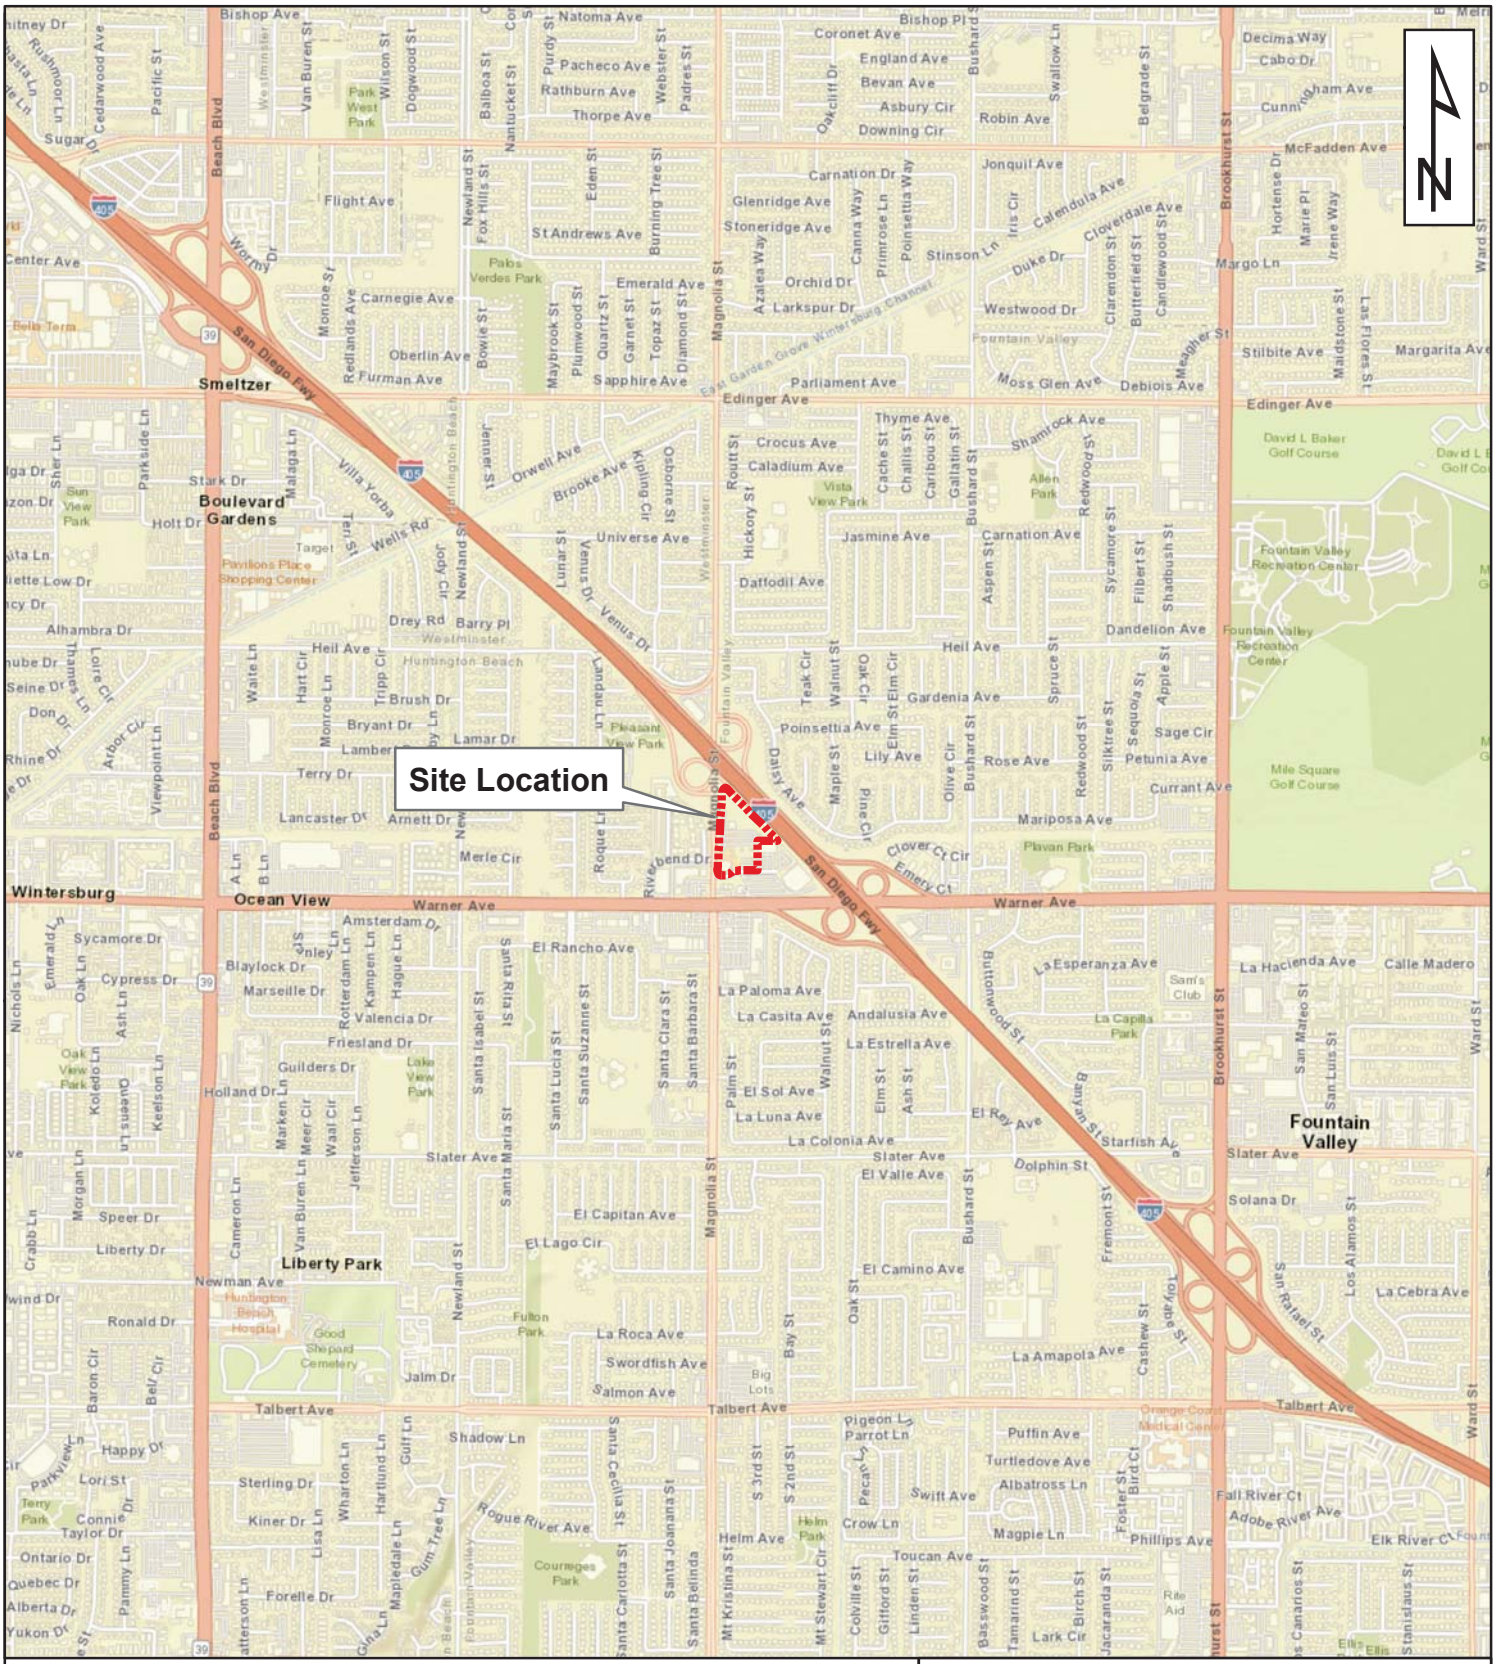

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in Ä312.10 of 40 CFR 312, and I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Derrick S. Willis
Principal

Qualifications of the Environmental Professional are provided in Appendix I.

**COMMITMENT FOR TITLE INSURANCE**

| First American | ALTA Commitment for Title Insurance |
|---|---|
| **Commitment** | ISSUED BY<br>**First American Title Insurance Company**<br>File No: NCS-1054034-OR1 |

**COMMITMENT FOR TITLE INSURANCE**

**Issued By**

***FIRST AMERICAN TITLE INSURANCE COMPANY***

**NOTICE**

**IMPORTANT-READ CAREFULLY:** THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

**COMMITMENT TO ISSUE POLICY**

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

**First American Title Insurance Company**

Dennis J. Gilmore, President

Greg L. Smith, Secretary

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

## COMMITMENT CONDITIONS

**1. DEFINITIONS**

(a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
(b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
(c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
(d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
(e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
(f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
(g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
(h) "Title": The estate or interest described in Schedule A.

**2.** If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

**3.** The Company's liability and obligation is limited by and this Commitment is not valid without:
(a) the Notice;
(b) the Commitment to Issue Policy;
(c) the Commitment Conditions;
(d) Schedule A;
(e) Schedule B, Part I—Requirements; and
(f) Schedule B, Part II—Exceptions.

**4. COMPANY'S RIGHT TO AMEND**

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

**5. LIMITATIONS OF LIABILITY**

(a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
  (i) comply with the Schedule B, Part I—Requirements;
  (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
  (iii) acquire the Title or create the Mortgage covered by this Commitment.
(b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
(c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
(d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
(e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
(f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
(g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

**6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT**

(a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
(b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
(c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
(d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
(e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
(f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

**7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT**

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

**8. PRO-FORMA POLICY**

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

**9. ARBITRATION**

Arbitration provision intentionally removed.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

**SCHEDULE A**

1. Commitment Date: March 11, 2021 at 7:30 AM

2. Policy to be issued:

   (a) ☒ 2006 ALTA® Extended Owner Policy
   Proposed Insured: To be determined
   Proposed Policy Amount: $ 0.00

   (b) ☐ 2006 ALTA® Policy
   Proposed Insured:
   Proposed Policy Amount: $ 0.00

   (c) ☐ 2006 ALTA® Policy
   Proposed Insured:
   Proposed Policy Amount: $

3. The estate or interest in the Land described or referred to in this Commitment is

   Fee Simple as to Parcels A, C and D, an Easement as to Parcel B

4. The Title is, at the Commitment Date, vested in:

   John M. Huish, as Trustee of the James W. Huish Testamentary Trust;
   John M. Huish, as Trustee of "The Huish Land Trust" dated May 24, 1984;
   Richard Court Huish, Trustee of the Carolyn B. Huish Children's Trust;
   Scott R. Huish and Shane F. Huish, as Co-Trustee of the Huish 3P2k Trust, dated February 11, 2021, Trust "A",
   all as their interest appear of record

5. The Land is described as follows:

   **See Exhibit "A" attached hereto and made a part hereof**

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

Commitment No.: NCS-1054034-OR1

**SCHEDULE B, PART I**

**Requirements**

All of the following Requirements must be met:

A. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.

B. Pay the agreed amount for the estate or interest to be insured.

C. Pay the premiums, fees, and charges for the Policy to the Company.

D. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.

E. Releases(s) or Reconveyance(s) of Item(s):

F. Other: None

G. You must give us the following information:
   a. Any off record leases, surveys, etc.
   b. Statement(s) of Identity, all parties.
   c. Other:

With respect to the trust referred to in the vesting:

a. A certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.
b. Copies of those excerpts from the original trust documents and amendments thereto which designate the trustee and confer upon the trustee the power to act in the pending transaction.
c. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

The following additional requirements, as indicated by "X", must be met:

[X] H. Provide information regarding any off-record matters, which may include, but are not limited to: leases, recent works of improvement, or commitment statements in effect under the Environmental Responsibility Acceptance Act, Civil Code Section 850, et seq.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

The Company's Owner's Affidavit form (as provided by the company) must be completed and submitted prior to close in order to satisfy this requirement. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

[] I. An ALTA/NSPS survey of recent date, which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys, must be submitted to the Company for review. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

[] J. The following LLC documentation is required from:

(i) a copy of the Articles of Organization
(ii) a copy of the Operating Agreement, if applicable
(iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
(iv) express Company Consent to the current transaction

[] K. The following partnership documentation is required **:**

(i) a copy of the partnership agreement, including all applicable amendments thereto
(ii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
(iii) express Partnership Consent to the current transaction

[] L. The following corporation documentation is required:

(i) a copy of the Articles of Incorporation
(ii) a copy of the Bylaws, including all applicable Amendments thereto
(iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
(iv) express Corporate Resolution consenting to the current transaction

[] M. Based upon the Company's review of that certain partnership/operating agreement dated **Not disclosed** for the proposed insured herein, the following requirements must be met:
Any further amendments to said agreement must be submitted to the Company, together with an affidavit from one of the general partners or members stating that it is a true copy, that said partnership or limited liability company is in full force and effect, and that there have been no further amendments to the agreement. This Commitment will then be subject to such further requirements as may be deemed necessary.

[] N. A copy of the complete lease, as referenced in Schedule A, #3 herein, together with any amendments and/or assignments thereto, must be submitted to the Company for review, along with an affidavit executed by the present lessee stating that it is a true copy, that the lease is in full force and effect, and that there have been no further amendments to the lease. This Commitment will then be subject to such further requirements as may be deemed necessary.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

[X] O. Approval from the Company's Underwriting Department must be obtained for issuance of the policy contemplated herein and any endorsements requested thereunder. This Commitment will then be subject to such further requirements as may be required to obtain such approval.

[] P. Potential additional requirements, if ALTA Extended coverage is contemplated hereunder, and work on the land has commenced prior to close, some or all of the following requirements, and any other requirements which may be deemed necessary, may need to be met:

[] Q. The Company's "Indemnity Agreement I" must be executed by the appropriate parties.

[] R. Financial statements from the appropriate parties must be submitted to the Company for review.

[] S. A copy of the construction contract must be submitted to the Company for review.

[] T. An inspection of the Land must be performed by the Company for verification of the phase of construction.

[] U. The Company's "Mechanic's Lien Risk Addendum" form must be completed by a Company employee, based upon information furnished by the appropriate parties involved.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

Commitment No.: NCS-1054034-OR1

**SCHEDULE B, PART II**

**Exceptions**

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.

2. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

3. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

4. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

5. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.

6. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

7. General and special taxes and assessments for the fiscal year 2021-2022, a lien not yet due or payable.

8. General and special taxes and assessments for the fiscal year 2020-2021.
   First Installment: $9,116.32, PAID

(Affects Portion of Parcel A)

11. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

**The Following Matters Affect Parcels A, B and C:**

12. Abutter's rights of ingress and egress to or from the ocean-view channel adjacent thereto, said rights having been excepted and reserved unto the state of California have been relinquished in the document recorded January 08, 1965 as Book 7374, Page 521 of Official Records.

13. Covenants, conditions, restrictions and easements in the document recorded as Book 8401, Page 398 of Official Records, which provide that a violation thereof shall not defeat or render invalid the lien of any first mortgage or deed of trust made in good faith and for value, but deleting any covenant, condition or restriction indicating a preference, limitation or discrimination based on race, color, religion, sex, handicap, familial status, national origin, sexual orientation, marital status, ancestry, source of income or disability, to the extent such covenants, conditions or restrictions violate Title 42, Section 3604(c), of the United States Codes or Section 12955 of the California Government Code. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.

14. Abutter's rights of ingress and egress to or from the street, highway or freeway have been relinquished in the document recorded May 07, 1969 as Book 8949, Page 929 of Official Records.

15. An easement for underground lines and incidental purposes in the document recorded as Book 11532, Page 1186 of Official Records.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

16. An easement for underground lines and incidental purposes in the document recorded as Book 11538, Page 1587 of Official Records.

17. An easement for underground lines and incidental purposes in the document recorded as Book 11678, Page 1642 of Official Records.

18. Covenants, conditions, restrictions and easements in the document recorded January 02, 1985 as Instrument No. 85-339 of Official Records, but deleting any covenant, condition or restriction indicating a preference, limitation or discrimination based on race, color, religion, sex, handicap, familial status, national origin, sexual orientation, marital status, ancestry, source of income or disability, to the extent such covenants, conditions or restrictions violate Title 42, Section 3604(c), of the United States Codes. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.

19. An easement for either or both underground lines, conduits, including aboveground appurtenant fixtures and incidental purposes, recorded as Instrument No. 86-99941 of Official Records.
In Favor of: Southern California Edison Company, a corporation
Affects: Parcel 1 of Parcel A

20. A leasehold estate as created by that certain unrecorded lease dated July 29, 1998, executed by John M. Huish, as Trustee of the Huish Land Trust dated May 24, 1984 and Carolyn B. Huish Properties, a California limited partnership as lessor and Festival Fun Parks, LLC, a Delaware limited liability company as lessee, as disclosed by a Memorandum of Lease recorded July 29, 1998 as Instrument No. 98-489926 of Official Records.

Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records are not shown herein.

21. An easement for underground electrical supply and communication systems and incidental purposes, recorded January 05, 2021 as Instrument No. 2021000003341 of Official Records.
In Favor of: Southern California Edison Company, a corporation
Affects: as described therein

(Affects Parcel A)

**The Following Matters Affect Parcel D:**

22. The reservation for roads, railroads and ditches of a strip of land 30 feet wide, along, adjoining and each side of the Township and Section lines, and the reservation of the use and control of cienegas and natural streams of water, if any naturally upon, flowing across, into or by said tract, and the right of way for and to construct irrigation or drainage ditches through said tract to irrigate or drain the adjacent land, as contained in the deed from The Stearns Ranchos Co., recorded October 12, 1895 in Book 87, Page 298 of Deeds.

23. Abutter's rights of ingress and egress to or from Ocean-View Channel have been relinquished in the document recorded January 8, 1965 as Book 7374, Page 521 of Official Records.

24. Abutter's rights of ingress and egress to or from freeway have been relinquished in the document recorded May 7, 1969 as Book 8949, Page 929 of Official Records.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

25. An easement for transmission of water and incidental purposes, recorded May 7, 1969 as Book 8949, Page 929 of Official Records.

In Favor of: State of California
Affects: as described therein

26. An easement for sewer line and incidental purposes, recorded January 23, 1970 as Book 9198, Page 227 of Official Records.

In Favor of: City of Fountain Valley
Affects: as described therein

27. An easement for water line purposes and incidental purposes, recorded January 23, 1970 as Book 9198, Page 230 of Official Records.

In Favor of: City of Fountain Valley
Affects: as described therein

28. The effect of a map purporting to show the land and other property, filed in Book 66, Page 3 of Record of Surveys.

29. Terms and provisions of an unrecorded lease dated March 30, 1978, by and between John M. Huish, Lisbeth Huish, James W. Huish and Marie A. Huish as lessor and Fountain Valley Golf and Recreation Center, Inc., a California corporation as lessee, as disclosed by a Lease recorded April 23, 1979 as Book 13116, Page 329 of Official Records.

Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records are not shown herein.

30. Terms and provisions of an unrecorded lease dated April 24, 1979, by and between James W. Huish, Lisbeth J. Huish and John M. Huish as lessor and Fountain Valley Golf and Recreation Center as lessee, as disclosed by a Lease recorded April 25, 1979 as Book 13119, Page 711 of Official Records.

Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records are not shown herein.

**The Following Matters Affect All Parcels:**

31. Any facts, rights, interests or claims which would be disclosed by a correct ALTA/NSPS survey.

**Copyright 2006-2016 American Land Title Association. All rights reserved.**

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

**ALERT - CA Senate Bill 2 imposes an additional fee of $75 up to $225 at the time of recording on certain transactions effective January 1, 2018. Please contact your First American Title representative for more information on how this may affect your closing.**

# APPENDIX B

# USER PROVIDED INFORMATION QUESTIONNAIRE

# Phase I Environmental Site Assessment Questionnaire

(User Provided Information Questionnaire)

**Date: ____04/12/2021**

**Your Name: Ryan Guthrie**

**Your Title: Development Director**

**Site Name: 16800 Magnolia**

**Site Location:16800 Magnolia Street,**
**Fountain Valley, CA**

**Relationship to Site:** ☐ **Owner** ☐ **Occupant** ☒ **Purchaser** ☐ **Other (please explain)**

**Length of Time Associated with Site:3 months**

Please review and complete this questionnaire which will assist Northgate in completing our site assessment. If sufficient space in not provided, please compete your response on a separate sheet of paper and attach it to this questionnaire.

1. Are you aware of any environmental cleanup liens against the Site that are filed or recorded under federal, tribal, state or local law?

   ☐ Yes ☐ No ☒ Unknown ☐ N/A

   If Yes, please explain:_____

   _____

2. Are you aware of any activity or land use limitations, such as engineering controls (for contaminant control), land use restrictions or institutional controls, that are in place at the Site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

3. Do you have any specialized knowledge or experience related to the Site or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the Site or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

4. Are you aware of commonly known or reasonably ascertainable information about the Site that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

a) Do you know the past uses of the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

b) Do you know of specific chemicals that are present or once were present at the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

c) Do you know of chemical spills that have taken place at the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

d) Do you know of any environmental cleanups that have taken place at the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

e) Do you know if any fill material has been imported to the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

5. Do you know of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

6. Do you know of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on or from the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

7. Do you know of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products at the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

8. Based on your knowledge and experience related to the Site are there any obvious indicators that point to the presence or likely presence of contamination at the Site?

☐ Yes ☐ No ☒ Unknown ☐ N/A

If Yes, please explain:_____

_____

9. Does the Siteôs purchase price reasonably reflect the fair market value of the property?

☒ Yes ☐ No ☐ Unknown ☐ N/A

If No, do you know the reason for lower purchase price? Is it possible that the lower purchase price is because of contamination known or believed to be present at the Site?

☐ Yes ☐ No ☐ Unknown ☐ N/A

If Yes, please explain:_____

_____

10. Have any of the following documents been prepared for the Site and, if so, can copies be provided to Northgate:

- Environmental site assessment reports ☐ Yes ☒ No ☐ Copies available
- Environmental compliance audit reports ☐ Yes ☒ No ☐ Copies available
- Environmental permits (for example, solid waste disposal permits, hazardous waste disposal permits, wastewater permits, National Pollutant Discharge Elimination System permits, underground injection permits) ☐ Yes ☒ No ☐ Copies available
- Registrations for underground storage tanks (USTs) and/or above ground storage tanks (ASTs) ☐ Yes ☒ No ☐ Copies available
- Registrations for underground injection systems ☐ Yes ☒ No ☐ Copies available

- Material safety data sheets ☐ Yes ☒ No ☐ Copies available
- Community right-to-know plan ☐ Yes ☒ No ☐ Copies available
- Safety plans; preparedness and prevention plans; spill prevention, countermeasure, and control plans; etc. ☐ Yes ☒ No ☐ Copies available
- Reports regarding hydrogeologic conditions on the Site or in the surrounding area
  ☐ Yes ☒ No ☐ Copies available
- Notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the Site or relating to environmental liens encumbering the Site ☐ Yes ☒ No ☐ Copies available
- Hazardous waste generator notices or reports ☐ Yes ☒ No ☐ Copies available
- Risk assessments ☐ Yes ☒ No ☐ Copies available
- Recorded Activity and Use Limitations (e.g. deed restriction, asphalt cap)
  ☐ Yes ☒ No ☐ Copies available

If you know of specific chemicals or other hazardous materials (e.g., PCB associated with transformers, batteries, etc.) that are present or were once present at the property, how were they used, stored, and disposed?

Unknown

Do you know of aboveground or underground storage tanks on the property? If yes, what did they contain?

There used to be an underground petroleum storage tank on site. It has been re-moved and a No Further Action letter from the OC Healthcare agency has been provided

Do you have any knowledge or experience with nearby/adjacent properties? If yes, do you have knowledge of chemicals, releases, or cleanups on these properties?

Unknown

How long have you owned, operated, leased, or been familiar the present and past uses of the property?

3 months

Northgate Environmental appreciates your assistance on this project.

**SURROUNDING SITES: SEARCH RESULTS**

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

**STANDARD ENVIRONMENTAL RECORDS**

***Federal RCRA generators list***

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity

generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/14/2020 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

| Equal/Higher Elevation | Address | Direction / Distance | Map ID | Page |
|---|---|---|---|---|
| CVS PHARMACY # 9569<br>EPA ID:: CAR000228213 | 17136 MAGNOLIA STREE | S 1/8 - 1/4 (0.165 mi.) | H74 | 243 |

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/14/2020 has revealed that there are 5 RCRA-SQG sites within approximately 0.25 miles of the target property.

***State- and tribal - equivalent CERCLIS***

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 10/26/2020 has revealed that there are 2 ENVIROSTOR sites within approximately 1 mile of the target property.

***Local Lists of Registered Storage Tanks***

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 4 SWEEPS UST sites within approximately 0.25 miles of the target property.

***Other Ascertainable Records***

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/14/2020 has revealed that there are 29 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 11/04/2020 has revealed that there are 2 FINDS sites within approximately 0.001 miles of the target property.

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there are 9 DRYCLEANERS sites within approximately 0.25 miles of the target property.

# EXECUTIVE SUMMARY

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2019 has revealed that there is 1 HAZNET site within approximately 0.001 miles of the target property.

CIWQS: The California Integrated Water Quality System (CIWQS) is a computer system used by the State and Regional Water Quality Control Boards to track information about places of environmental interest, manage permits and other orders, track inspections, and manage violations and enforcement activities.

A review of the CIWQS list, as provided by EDR, and dated 11/30/2020 has revealed that there is 1 CIWQS site within approximately 0.001 miles of the target property.

# EXECUTIVE SUMMARY

CERS: The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

A review of the CERS list, as provided by EDR, and dated 10/19/2020 has revealed that there is 1 CERS site within approximately 0.001 miles of the target property.

**EDR HIGH RISK HISTORICAL RECORDS**

***EDR Exclusive Records***

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 4 EDR Hist Auto sites within approximately 0.125 miles of the target property.

| SASSOUN EXXON | 8980 WARNER AVE | SSW 0 - 1/8 (0.086 mi.) | D47 | 168 |

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 2 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

| Violations Found: | No |
| Eval Type: | Routine done by local agency |
| Eval Notes: | INSPECTOR COMMENT: On site for an initial hazardous waste inspection. Walked throughout the facility. Observed hazardous waste storage areas. Containers were closed and properly labeled. Discussed labeling requirements and storage methods for retail product hazardous wastes management with Daniel Maciel, Warehouse Associate. Employees are reported to be trained. Manifests were available for review. Facility generates the following waste streams: - Non-RCRA hazardous waste liquid water-based - Non-RCRA hazardous waste liquid grout/sludge water Emergency plan is available on site. No hazardous waste or universal waste observed in the dumpster/enclosure area. No hazardous waste violations were observed this date. |

|---|---|
| | Chapter 12, Section(s) 66262.34(f) |
| Violation Description: | Failure to label stationary hazardous waste tanks as "hazardous waste" and mark with an accumulation start date. |
| Violation Notes: | Returned to compliance on 08/20/2019. OBSERVATION: Two waste oil tanks and one waste antifreeze tank were missing a hazardous waste label and/or the accumulation start date. CORRECTIVE ACTION: These tanks were properly labeled while on site. |

| Citation: | 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16 |
| Violation Description: | Failure to provide employees with hazardous waste training program of class room instructions or on-the-job training within the first six months after the date of their employment or assignment to a facility, or to a new position at a facility and annually thereafter. Training records on current personnel shall be kept until closure of the facility and for former employees the record shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position. |
| Violation Notes: | OBSERVATION: Facility has not conducted their annual hazardous waste training for all employees on site. CORRECTIVE ACTION: Please have all the employees complete their hazardous waste training and provide documentation to show they have been trained within 30 days to this agency. |

| Citation: | HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a) |
| Violation Description: | "Failure to test or inspect each aboveground container for integrity based on industry standards as discussed in the SPCC Plan: 1. On a regular schedule. 2. After making material repairs. 3. Use non-destructive testing. 4. Inspect each containerG s supports, foundations, and outside for signs of deterioration, discharges, or accumulation of oil inside diked areas." |
| Violation Notes: | OBSERVATION: Facility is not conducting their monthly inspections using attachment B "SPCC Inspection Log" per their SPCC plan. In addition, the facility has not had the tanks inspected by a qualified independent tank inspection and testing service at least every 5 years per their SPCC plan (section B.7). CORRECTIVE ACTION: Conduct the required monthly inspections and the 5-year inspection for your tanks. Provide documentation to show this has been completed to this agency |

| Citation: | 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G) |
| Violation Description: | Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months. |
| Violation Notes: | Returned to compliance on 02/04/2019. OBSERVATION: Facility failed to test overfill prevention equipment at least once as of 10/13/2018 and every 36 months thereafter. CORRECTIVE ACTION: Overfill prevention test was conducted this date. Submit a copy of the test results to this Agency witin 30 days. Violation will be abated with passing test results. |

Eval Date: 04-30-2018
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: The following violation is as of this date uncorrected. To avoid further enforcement and possible fines, correct the violation within 15 days (5/15/18). OUTSTANDING VIOLATION - 4/30/18 I382 - The results indicate the following components FAILED testing: 87 main product secondary piping, diesel product secondary piping, Waste oil remote fill secondary piping, UDC 1/2, UDC 7/8. Repair and retest the failed components. (ISSUED 5/16/17) A plan for the repair was submitted to this agency on 4/6/18, but was determined not to be necessary. This facility was expected to instead replace the worn test boots and re-test the above components. As of this date, no re-test of the secondary containment components has been completed.

| Eval Notes: | On site for routine UST inspection, monitoring system certification, and spill bucket testing. The facility has five double-walled (87, 87, 91, diesel, waste oil) tanks monitored by a Veeder Root TLS350 system. The monitor is operational for audible and visual alarms. Positive shutdown and fail-safe programming were verified. In-tank probes are used for overfill prevention. The sensors in the fuel tank annulars, turbine sumps, and UDCs all shutdown the turbines when submerged in fuel. The leak detectors (PLLDs for 87 and 91, MLLD for diesel) were tested with a simulated 3 gph leak and were determined to be operational. The in-tank probes were positioned at 90% tank capacity, triggering an external audible/visual alarm for all four fuel tanks. The waste oil tank annular and sump sensors triggered an audible and visual alarm when submerged in fluid. Spill buckets were tested after inspector departure. Testing was conducted by Rich Poquette of Ideco. Technician [Truncated] |

| Eval Notes: | Onsite to conduct a routine UST inspections during the annual monitoring system certification. Rick Griffith of Ideco provided the following valid certifications: ICC, Veeder-Root, VMI. The manager, Sophea Phen was also present during this inspection. There are five double-walled tanks at this site: 87 main, 87 siphon, 91, diesel, waste oil. VR-341 sensors are in use in the 87 main, 91, and diesel tank annulars. A VR-343 is in use in the 87 siphon tank annular. A VR-407 is in use in the waste oil tank annular. Overfill prevention for the fuel tanks is provided by ATGs connected to an outside annunciator. Overfill prevention for the waste oil tank is visual: The remote fill piping is disconnected and capped. Electronic leak detectors are in use on the gasoline product lines. A mechanical leak detector is in use on the diesel product line. Fail-safe and sensor-out were demonstrated operational. The following documents were reviewed: Permit Monitoring Plan 12/21/14, [Truncated] |

| Eval Notes: | SR0123211 On site for final inspection of tank conversion of 91 to diesel product. Construction work was conducted by Petrobuilders and testing/monitoring work was conducted by Ideco. Two changes to the plans were noted during the inspection: 1) The plans specify the north tank for conversion, but the south tank was converted instead. 2) The plans specify that Bravo dispenser conversion frames were to be installed on the dispensers that now feature diesel. The dispensers do not fall outside of the UDC footprint, therefore the frames were not required. The monitor programming was revised to reflect the change in product. All monitoring components that are to be in contact with diesel product were verified for compatibility. Final Inspection = PASS Please submit a revised tank page and site diagram in the CERS database within 30 days. A revised permit will be issued by this Agency upon review of the electronic documents. The plan check will be complete when [Truncated] |

| Eval Notes: | On site for routine UST inspection and to observe the following testing activities: - Monitoring system certification - Spill bucket testing - Line leak detector testing The facility has the following double-walled tanks: - Regular gasoline (87): 12,000 gallons - Premium gasoline (91): 10,000 gallons - Diesel fuel: 10,000 gallons All tanks are monitored by a Gilbarco EMC monitoring system. The facility is using the following monitoring sensors: - Turbine sumps: 87 = VR-208; 91 = VR-208; Diesel = Gilbarco 102 - Fill sumps (all tanks): Gilbarco 102 - Annulars (all tanks): Gilbarco 302 - UDCs: Beaudreau 406 The site has double-walled pressurized piping with Red Jacket FX1V/FX1DV mechanical line leak detectors. Positive shutdown and failsafe were performed and verified. Flapper valves and ball floats are used for overfill prevention. Overfill prevention testing was last performed on 3/20/2019. Secondary containment testing was last [Truncated] |

| Eval Notes: | An on-site inspection was conducted this date to witness the annual monitoring system certification. Rodney Bresden (Tank-Tek) conducted the monitoring system certification and provided current Veeder-Root and ICC certifications. This facility contains: 3 - USTs (diesel, 87, 91) Monitor system is a Veeder-Root(Gilbarco) monitor panel and reads all functions normal. Overfill protection provided by fill tube shut-off valves (flapper). Sensors were observed positioned so as to initiate alarms at the earliest point possible. Sensors were re-positioned in a true vertical position upon installation after testing. Alarm history and setup tape reviewed while on site. The following were tested: - Sensors, initiated positive shutdown to the turbines when tested in water - G Fail SafeG and G Positive ShutdownG - Spill buckets using a visual hydrostatic test - Leak detectors. (mechanical) Documents reviewed onsite: - Permit to operate - Previous Monitoring System [Truncated] |

| Eval Notes: | Onsite to conduct a routine hazardous waste inspection. Consent to inspect and take photos was granted by the manager, Maria Flores. A walk-through of the facility, parking lot and dumpster area was conducted. There was no hazardous waste observed in the dumpster on this date, and no photos were taken. The following were observed: 55-gallon drum of liquid with fuel The container was observed properly stored and labeled. Hazardous waste disposal documents were reviewed. No hazardous waste violations were observed on this date. A copy of this report will be sent to sgerman@gmoc.com |

| Eval Notes: | Onsite to conduct a routine UST inspection during the annual monitoring system certification. Enrique Aguirre of Tank-Tek provided the following valid certifications: ICC, Veeder-Root, VMI, Franklin DC-400 Cutoff System, FE Petro. The manager, Maria Flores was also present during this inspection. There are three double-walled fiberglass tanks at this site: 12K 87, 10K 91, 10K diesel. VR-302 sensors are in use in the wet annulars. Overfill prevention is provided by flapper valves in the drop tubes of each tank. VR-112 sensors are in use in the diesel fill and STP sumps; VR-102 sensors are in use in the 87 and 91 fill sumps; VR-208 sensors are in use in the the 87 and 91 STP sumps. UDCs 1-2, 3-4, 5-6, 7-8, 9-10, 11-12 are |

Eval Notes: Mark Sutphin on site to conduct a routine hazardous waste inspection. Permission to enter inspect, and take photographs granted by Roger Pineda the cashier. Waste absorbent, and testing water stored in 55 gallon drums properly labeled and stored closed on east side of building. Municipal dumpster area does not appear to contain any hazardous waste. Perimeter of facility inspected - did not observe any water runoff or staining at this time. Hazardous Waste Emergency Response plan was available for review. Manifests and bills of lading for all hazardous waste streams were reviewed today. Hazardous waste is hauled by Belshire. Ensure all hazardous waste manifests/disposal documents are maintained on site for at least three years from the date of transport and are available for review during normal business hours. Most recent manifests dated 5-15-15 and 4-27-15, . Please continue to ensure all universal wastes (fluorescent lamps, high intensity discharge lamps, [Truncated]

Eval Notes: Mark Sutphin onsite to perform the annual UST facility inspection and to witness the underground storage tank(UST) annual monitor certification. Permission to enter, inspect, and take photographs granted by Roger Pineda. Enrique Aguirre with Tank-Tek is the contractor handling the monitoring certification. Mr. Aguirre presented his Veeter Root, and ICC certification, all are current. During the inspection the following was observed: 1. The facility has three double walled UST' monitored by a Gilbarco EMC system - Regular, Plus, Supreme, and Diesel. 2. All sumps were inspected and were dry with Veederoot 208 sensors that were properly positioned at the low point in the gasoline turbine sumps, 102 sensors in the gasoline fill sumps, and 112 sensors in the diesel sumps. Test boots on product secondary lines in piping sumps were pulled back and open, and all the sensors were located in lowest points in sumps The 6 udcs were dry with 406 sensors at the low point Spill [Truncated]

| Violations Found: | No |
| Eval Type: | Routine done by local agency |
| Eval Notes: | A routine hazardous waste inspection was conducted this date. Access to the facility was provided by Darryl Yoshizumi, Asst. Manager. Hazardous waste observed onsite included damaged/returned consumer products from within the following: - Aerosols - Caustics - Corrosives - Flammables - Oxidizers Municipal dumpster area does not appear to contain any hazardous waste. Perimeter of facility inspected - did not observe any indication of a hazardous waste release. Hazardous Waste Emergency Response exists onsite in the Business Emergency Plan. Employees that manage hazardous waste are given jobsite training. Hazardous waste containers were observed to be properly labeled and covered during inspection. Reviewed consolidated manifests and manifests for all hazardous waste streams. |

| Violation Date: | 04-12-2018 |
| Citation: | 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f) |
| Violation Description: | Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date. |

**ALDI #33 (Continued)** **S121019560**

| | |
|---|---|
| Violation Notes: | OBSERVATION: All hazardous waste containers shall be marked with the following information: 1) the words G Hazardous WasteG ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. All of the hazardous waste containers observed this date were missing the generator name and address. CORRECTIVE ACTION: Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information. You may send a photograph of the properly labeled container to this agency within 30 days (5/12/18) to correct this violation. |

| Violation Description: | Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste. |
| Violation Notes: | OBSERVATION: The signed returned copy of the Uniform Hazardous Waste Manifest from the designated facility for non-RCRA hazardous waste liquid were not available at the time of inspection. CORRECTIVE ACTION: Locate a copy of the signed by designated facility manifest, shipment date 2/21/2019, for the non-RCRA hazardous waste liquid and submit copies to this Agency via email. |

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource

**MILAN CLEANERS (Continued)** **1000150312**

Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport,

**VALETON 1 HR CLEANERS (Continued)** **1000118117**

and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERS ID: 10719820
CERS Description: Chemical Storage Facilities

Violations:
Site ID: 414385
Site Name: HBW-9
Violation Date: 08-13-2019
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to label stationary hazardous waste tanks as "hazardous waste" and mark with an accumulation start date.
Violation Notes: Returned to compliance on 08/13/2019. OBSERVATION: The waste oil tank on site was missing the accumulation start date. CORRECTIVE ACTION: The tank was properly labeled with all the required information while on site. No further corrective action necessary.
Violation Division: Orange County Environmental Health

Eval Type: Routine done by local agency
Eval Notes: Met with Steve Styles of Huntington Beach Water Production Supervisor. Consent was provided to enter, take photos, and conduct inspection activities. This facility is regulated under CalARP Program Level 3 Requirements for Chlorine gas. The facility operates and maintains eight (8) Stationary Sources and includes all stationary sources under one (1) RMP. The following are the regulated substances at each site: -- Overmeyer Reservoir and wells 3A, 4, and 5 - Total Chlorine: 2,150 pounds -- Edwards Hill - Total Chlorine: 300 pounds -- Wells 6, 7, 9, 10, and 13 - Total Chlorine: 4,000 pounds The following were observed: Program Level 3 Requirements were reviewed this date: -- RMP Certification: The RMP is on-site and includes a Program Level 3 Certification statement. The RMP was recertified on 6/11/2019. -- The Executive Summary was reviewed and was complete. -- The Program level 3 federal registration was current and complete. -- The worst [Truncated]

| Eval Notes: | On site to conduct a routine hazardous waste inspection. Met with Chris Cassotta, crewleader of the site. Facility is a small quantity generator of waste oil. Inspected the facility, perimeter, and the hazardous waste storage area. Observed one double-walled 120 gallon hazardous waste oil tank on site. Per Mr. Cassotta, when the engine on site is serviced, manual valves are opened to allow the oil to drain directly into the waste oil tank. Facility personnel are on site daily and inspect the tank. A hazardous waste label was provided and the tank was properly labeled. Reviewed documentation including manifests and contingency plan. Additional hazardous waste labels were provided to Mr. Cassotta. A copy of this report will be sent to sstyles@surfcity-hb.org and ccassotta@surfcity-hb.org. |

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:
Registry ID: 110013309115

Click Here:

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

**SHELL SERVICE STATION (Continued)** **1006805202**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-20-2014
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Onsite to conduct a routine hazardous waste inspection. Met with Wes. Inspected used oil, drained used oil/fuel filters, and waste antifreeze. Drums and tanks were provided with a lid, stored in a secure manner and appear to be in good condition. The operator completes a maintenance inspection on the drums and tanks on a weekly basis. A Hazardous Waste label was noted on all drums and tanks with the required identification. Municipal dumpster area does not appear to contain any hazardous waste. Perimeter of facility inspected - did not observe any water runoff or staining at this time. Hazardous Waste Emergency Response plan was available for review. Manifests and bills of lading for all hazardous waste streams were reviewed today. Ensure all hazardous waste manifests/disposal documents are maintained on site for at least three years from the date of transport and are available for review during normal business hours. Please continue to ensure all [Truncated]

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

**STANDARD ENVIRONMENTAL RECORDS**

***Federal NPL site list***

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/30/2020

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994

Data Release Frequency: No Update Planned

***Federal Delisted NPL site list***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/30/2020
Date Data Arrived at EDR: 01/14/2021

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

***Federal RCRA generators list***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/14/2020
Date Data Arrived at EDR: 12/17/2020

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

***State- and tribal - equivalent CERCLIS***

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

**ADDITIONAL ENVIRONMENTAL RECORDS**

***Local Brownfield lists***

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 12/11/2020

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 12/07/2020

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2019

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## EDR HIGH RISK HISTORICAL RECORDS

### *EDR Exclusive Records*

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

**OTHER DATABASE(S)**

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

**USGS TOPOGRAPHIC MAP**

| | |
|---|---|
| Target Property Map: | 5640950 NEWPORT BEACH, CA |
| Version Date: | 2012 |

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**GROUNDWATER FLOW DIRECTION INFORMATION**

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

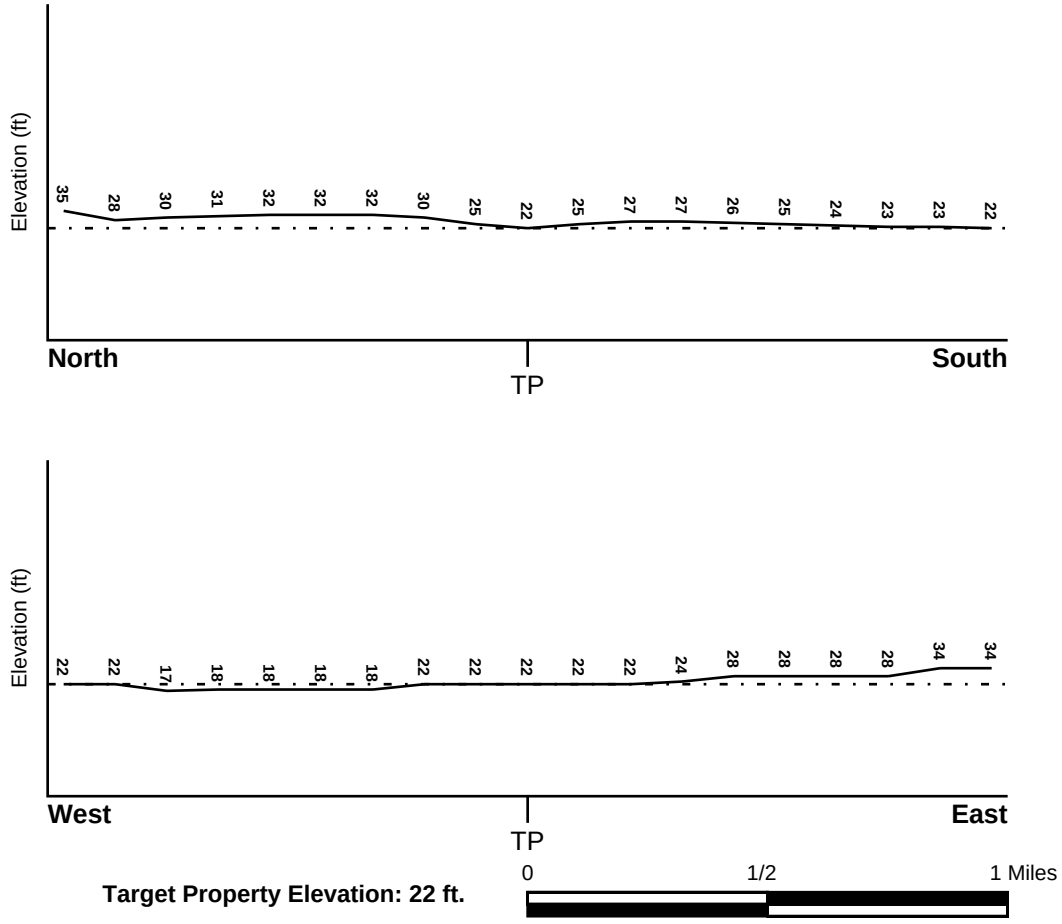

**TOPOGRAPHIC INFORMATION**

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

**TARGET PROPERTY TOPOGRAPHY**

General Topographic Gradient: General SSW

**SURROUNDING TOPOGRAPHY: ELEVATION PROFILES**

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**HYDROLOGIC INFORMATION**

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

**FEMA FLOOD ZONE**

| Flood Plain Panel at Target Property | FEMA Source Type |
|---|---|
| 06059C0253J | FEMA FIRM Flood data |

| Additional Panels in search area: | FEMA Source Type |
|---|---|
| 06059C0251J | FEMA FIRM Flood data |
| 06059C0252J | FEMA FIRM Flood data |
| 06059C0254J | FEMA FIRM Flood data |

**NATIONAL WETLAND INVENTORY**

| NWI Quad at Target Property | NWI Electronic Data Coverage |
|---|---|
| COSTA MESA | YES - refer to the Overview Map and Detail Map |

**HYDROGEOLOGIC INFORMATION**

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

***Site-Specific Hydrogeological Data*:***

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

**GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

**ROCK STRATIGRAPHIC UNIT**

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY**

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

---

**Soil Map ID: 1**

Soil Component Name: HUENEME

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

| Soil Layer Information | | | | | | | |
|---|---|---|---|---|---|---|---|
| | Boundary | | | Classification | | Saturated hydraulic conductivity micro m/sec | Soil Reaction (pH) |
| Layer | Upper | Lower | Soil Texture Class | AASHTO Group | Unified Soil | | |
| 1 | 0 inches | 27 inches | fine sandy loam | Not reported | Not reported | Max: 42<br>Min: 14 | Max: 8.4<br>Min: 7.4 |
| 2 | 27 inches | 59 inches | stratified sand to silt loam | Not reported | Not reported | Max: 42<br>Min: 14 | Max: 8.4<br>Min: 7.4 |

---

**Soil Map ID: 2**

Soil Component Name: BOLSA

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

## HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

## HYDROGEOLOGIC INFORMATION

AQUIFLOW$^{R}$ Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

## OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Northgate Env. Management, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

## *Certified Sanborn Results:*

### UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 3F3C-4781-9EB9

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

*The Sanborn Library LLC Since 1866™*

### Limited Permission To Make Copies

Northgate Env. Management, Inc. (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

# EXECUTIVE SUMMARY

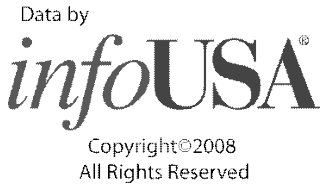

## DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

## RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

## RESEARCH SUMMARY

# APPENDIX I

# ENVIRONMENTAL PROFESSIONAL QUALIFICATIONS

# DERRICK S. WILLIS
## PRINCIPAL III

Mr. Willis has over 28 years' experience serving both public sector and private clients in the Western United States and Canada on a wide variety of environmental projects. He has designed and implemented numerous site investigations, feasibility studies, client portfolio remedial cost scenarios, cleanup plans, and economic analyses involving contaminated soil, soil vapor, and groundwater as well as land reuse options. For the last several years, Derrick's focus has been on formulating and facilitating closure and development strategies for large, complex, high profile, environmental projects for aerospace, industrial, and real estate development clients. He specializes in developing closure strategies that integrates remediation with redevelopment/land re-use. Derrick works with his client base to streamline the regulatory and clean-up process and successfully transforms projects for his clients from liabilities to assets. His expertise in fate and transport of chemicals in the environment, risk evaluation, and remedial technologies, regulatory requirements, combined with a keen understanding of client business objectives results in creative, efficient, and successful remediation/ revitalization projects.

## REPRESENTATIVE EXPERIENCE

### *Site Investigation and Remediation*

- ***Former Riverton Steel Facility, Southgate, California*** – Project manager on the investigation and remediation of a former steel production facility that is now currently adjacent to a residential development and a newly developed school. Developed remedial approach for lead impacted soil and concrete and air monitoring program (in accordance with SCAQMD Rule 1466) so that demo and concrete crushing operations were protective of adjacent receptors. CMS/RAP for remedial program, which dovetails remediation and development, was approved, and is currently being implemented.
- ***Baker Cold Storage, Port of Long Beach Pier B Facility, California –*** Serves as project manager for investigation, remediation and redevelopment support of a 12-acre former brownfield (wood treatment facility) in the Port of Long Beach. The site is impacted with pentachlorophenol (PCP), metals, VOCs, and dioxins/furans. In addition, tidally influenced groundwater is impacted with PCP and petroleum hydrocarbons and methane charged from oilfield operations. Mr. Willis evaluated investigation data, managed a groundwater investigation program and developed a remedial approach for soil and groundwater. Mr. Willis successfully streamlined the regulatory process by aggregating the remedial work plans including RCRA closure of a drip pad, into one encompassing work plan (Soil and Groundwater Response Plan), which included an air monitoring program during earthmoving of the contaminants on Site, and one Remedial Design Document ([RDD] that incorporated the facility design components into building mitigation design), and securing agency approvals on components of site construction concurrent with development of the RDD. Site was redeveloped with a 250,000 square-foot cold storage facility and is currently undergoing monitored natural attenuation for groundwater.

- ***Black Mountain Industrial Complex Remedial Design and Implementation, Nevada*** – Served as project manager for expedited investigation and remediation program for the Tronox industrial facility within the BMI Complex. Previously the world's largest magnesium production facility during World War II, the site was later utilized for the manufacture of rocket fuel, other products, and most recently alkali and manganese oxide-based chemicals. Historical Industrial operations resulted in subsurface impacts from heavy metals, perchlorate, pesticides, chlorinated solvents, asbestos, radionuclides, and other chemicals. Developed streamlined investigation and remedial approach, prepared remedial plans, including a comprehensive air and dust monitoring program, and rapidly mobilized and managed a team of staff and subcontractors to remove approximately 800,000 cubic yards of soil from the site to meet commercial soil cleanup goals for direct contact exposure in an expedited timeframe.
- ***Kimco Realty Corporation, multiple locations in California and Nevada, –*** Serves Principal-in-Charge and program manager for investigation and remediation of several dry-cleaner sites in California (Cupertino, Daly City, Lakewood, LaVerne, Anaheim, Whittier) and Reno, Nevada. Projects range from investigation of soil and soil vapor impact to remediation of soil, soil vapor and groundwater. Mr. Willis is responsible for developing remedial strategies, negotiating with regulatory agencies, and providing technical direction to staff in order to evaluate and remediate site impacts, and bring sites to regulatory closure.
- ***RREEF, Villa Marina Marketplace, Marina Del Rey, California —*** Mr. Willis managed the design and installation of a groundwater treatment system to treat groundwater impacted from metals and selenium to meet NPDES discharge requirements for a basement dewatering system for a shopping center. He currently manages the operation, maintenance and reporting associated with the ongoing dewatering system.
- ***Hawaii Wood Preserving Company Treatment Facility, Maui, Hawaii –*** Served as project manager, for decommissioning, investigation, remediation, and closure for a former wood treatment facility to allow for redevelopment. The site operated as from 1972 to 2001 to treat lumber with PCP, chromated copper arsenate (CCA), permithrin, and disodium octoborate. Chemicals were profiled, all equipment was decontaminated and decommissioned, and verification sampling was conducted as part of decommissioning. A remedial investigation and remedial alternatives analysis was developed and implemented to investigate and develop a path-forward to closure. The implemented remedial approach consisted of site capping and long-term groundwater monitoring.
- ***Lockheed Martin Former International Light Metals Facility, Torrance, California —*** Served as project manager and principal investigator for a 67-acre aerospace facility where client objective was expedited redevelopment. The project included facility demolition, preparation and implementation of a Resource Conservation and Recovery Act (RCRA) closure plan for 11 permitted RCRA units, negotiations with the Department of Toxic Substance Control (DTSC), preparation of a RCRA Facility Assessment (RFA) (210 features identified that required intrusive investigation), implementation of a RCRA Facility Investigation (RFI) for soil and groundwater, preparation of a health-based risk assessment, and implementation of soil remediation. Site closure for soil was granted only three years after project initiation, in contrast to the normal six to eight year process, and has been used as an example by head DTSC officials as an example of industry and the regulatory community working together to achieve expedited site closures for property redevelopment purposes. Mr. Willis also developed strategy for groundwater investigation and remediation and negotiated the corrective action consent agreement (CACA) with DTSC.

- ***Playa Capital Corporation, Playa Vista Development Project, Los Angeles, California —*** Mr. Willis served as program manager for the Playa Vista project, one of the largest and most visible brownfield development projects in the country. At 1,100 acres, it is the largest underway in Los Angeles County. His primary responsibility included environmental program management (including scoping, developing, scheduling, and tracking environmental activities for the development project), risk management (including developing and negotiating with agencies for appropriate cleanup criteria), remedial strategy/management (including development and implementation of pilot tests and oversight of investigation and remediation activities), agency/RP/buyer negotiations, consultant and contractor selection/oversight, coordination with Playa's infrastructure group on the development/implementation of integrated remedial approach where appropriate, litigation support, data management, and transactional support with respect to the sale of remediated parcels.
- ***Project Manager, Confidential Client, Buena Park, California —*** Served as project manager for multi-media remediation project at a commercial development in Buena Park, California. The site was a former food processing facility that was redeveloped into commercial offices and warehouse space. Evaluated the environmental liability for a Real Estate Investment Trust (REIT) that subsequently purchased the property, and managed remediation program in conjunction with site redevelopment.
- ***Project Manager, Brownfield Redevelopment, Torrance, California —*** Served as project manager for site redevelopment project for a PacTrust. Evaluated environmental liabilities associated with a 12-acre parcel that was part of a butadiene plant (Del Amo Superfund Site) left undeveloped as a brownfield, and formulated a strategy to expedite regulatory closure and redevelopment. A comprehensive investigation was completed on the parcel, and the report submitted to the Environmental Protection Agency (EPA) for review. Successfully negotiated with EPA to conduct a non-Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) closure program. Conducted soil remediation program under EPA oversight in conjunction with site construction activities.
- ***Project Manager, Investigation and Remediation Program, Safety Kleen, Vancouver, British Columbia, Canada —*** Managed remediation of former solvent recycler transfer stations in British Columbia and Alberta, Canada. Sites involved characterization and remediation of soil and perched groundwater zones. Assessed feasibility of vapor extraction for cleanup of vadose zone contamination, and designed and installed a dewatering system for perched water in former tank cavities and surficial saturated zone for Vancouver transfer station. Achieved regulatory site closure two years faster than previous consultant's estimate.
- ***Cupples Manufacturing, Investigation and Remediation Program, La Mirada, California —*** Project manager for soil/groundwater characterization and remediation program at a truck maintenance facility in La Mirada, California. Conducted an underground storage tank and clarifier removal program in conjunction with site characterization activities. Implemented remediation of soil and groundwater impacted with petroleum hydrocarbons. Negotiated and received closure from Regional Water Quality Control Board (RWQCB).
- ***Alberta Environment, Abandoned Wood Treatment Sites, Various Locations, Alberta, Canada —*** Project manager for the Wood Preserving Sites Characterization Program for Alberta Environment. Performed site characterization of four former wood preservation sites in Alberta, Canada. The sites had been used for many years for treating wood poles and railroad ties with a pentachlorophenol/diesel mixture. Soil and/or groundwater were impacted at the sites. Soil borings

and groundwater monitoring wells were installed, and laboratory analysis of soil and groundwater was performed, to help determine the lateral and vertical migration of dissolved-phase hydrocarbons in the groundwater and dense non-aqueous phase liquids (DNAPLs) through glacial tills and several non-confining layers. Detailed drilling and sampling plans were necessary to ensure correct evaluation of vertical DNAPL migration. Aquifer tests were performed and receptor data were collected in order to formulate a quantitative assessment of both health-based and environmental risk.

- ***Texaco Refining and Marketing Inc., Investigation and Remediation Programs, Various Locations, Southern California —*** Responsible for remediation programs at several petroleum retail outlets for Texaco in the southern California area. Projects included soil and groundwater investigation programs, underground storage tank (UST) removals, remedial design (including design and implementation of vapor extraction and aquifer tests), implementation of remedial program, and operation and maintenance of remediation systems. This included designing, specifying, permitting, and installing of all equipment (including piping, downhole pumps, off-gas treatment, and water treatment).
- ***Groundwater Contamination Investigation and Analysis, Technisol, Raymond, Alberta, Canada —*** Conducted a groundwater investigation program at a solvent recycling facility located in southern Alberta, Canada. The program was implemented to determine the lateral and vertical extent of several species of chlorinated volatile organic compounds present in the confined aquifer beneath the facility. Aquifer testing was performed to estimate migration rates and to provide preliminary data for remedial action. Successfully negotiated with Alberta Environment (lead regulatory agency) for monitored natural attenuation approach.
- ***Pier A Railyard, Port of Los Angeles, Los Angeles, California —*** Managed a soil and groundwater investigation program at a Port of Los Angeles rail transfer yard. The objective of the project was to characterize previously identified polynuclear aromatic compounds, volatile organic compounds, and petroleum hydrocarbons in the soil and groundwater, and identify any regulated building materials in the site structures in order to facilitate an expedited redevelopment program. The project was finished ahead of schedule and under budget.
- ***Soil and Groundwater Remediation, Texaco, Various Locations, Southern California —*** Conducted vapor extraction tests, performed data analysis, and generated recommendations for an industrial manufacturing facility to determine the viability of using vapor extraction for remediating chlorinated solvents, primarily tetrachloroethene (PCE), present in the soil beneath the facility. Each test was designed to assess air flow rates and vacuums, vertical interference and crossflow, radii of influence, potential for water upwelling, and effectiveness of vapor extraction in both vadose and capillary zones. Extracted vapors were collected to determine volatile organic compound concentrations. Data were used to determine well spacing and slotting intervals, optimum flow rate/vacuum combinations, extraction blower sizing, and vapor treatment equipment.
- ***Texaco, Various Locations, Southern California—*** Responsible for preparation of South Coast Air Quality Management District (SCAQMD) permitting, installation, operation and maintenance of thermal and catalytic oxidizers/vapor extraction systems for the remediation of soil (containing petroleum hydrocarbons) beneath operating service stations.

### *Environmental Site Assessments*

- ***RREEF, Multiple Sites, Southern California —*** Mr. Willis serves as client director for RREEF on multiple projects including acquisition studies (which include mold, asbestos and indoor air quality surveys), tenant audit programs, soil remediation, groundwater investigation and remediation, third party oversight, agency negotiation, and mold and asbestos abatement programs.
- ***Watson Land Company, Multiple Sites, Southern California —*** Mr. Willis has directed over 40 acquisition-related due diligence investigations for Watson Land Company (Watson). Scope of work has included Phase I ESAs, soil and groundwater investigations, risk evaluations, agency negotiation, and aiding Watson in evaluating and quantifying the potential risk associated with recognized environmental concerns.
- ***Various Clients, Various Locations, Southern California —*** Project manager for more than 200 Phase I environmental assessments (ESAs) for industrial facilities including aerospace, furniture and paper manufacturing factories; utility companies, vehicle and equipment maintenance facilities; and landfills as well former agricultural land. The objective of the ESAs was to evaluate and quantify potential liabilities associated with the acquisition and development of the properties.

### *Litigation Support*

- ***Litigation Support, Confidential Client, City of Commerce, California –*** Conducted site review of historical records, developed and implemented soil, soil vapor, and groundwater investigation, and developed Site Conceptual Model (SCM) for former aerospace facility that was now developed as a multi-tenant warehouse. Successful in being able reconstruct historical SCM to show that environmental impacts were caused by historic aerospace operations from the 1940s to 1960s and not from the more recent tenant operations. Provided information and deposition for property management firm's counsel.
- ***Mediation Support, Confidential Client, Los Angeles, California –*** Project manager for mediation support of insurance claim for cost reimbursement for handling, transportation and disposal of petroleum contaminated soil encountered during development of a high rise on a former hospital site. Work consisted of using photogrammetry and historical records to develop a volume of contaminated soil and expert witness report using spatial data analysis, rebuttal of expert witness reports, and expert witness testimony as part of mediation where a judgement was made in favor of our client for the full reimbursement cost.

## EDUCATION

B.S., Geology, University of Alberta, Alberta, 1988

## PROFESSIONAL HISTORY

Northgate Environmental Management, Principal, 2006 to date
LFR Levine Fricke, Principal Geologist, 2002 – 2006
Integrated Environmental Services, Director of Operations/Senior Program Manager, 1999– 2002
ARCADIS Geraghty & Miller, Inc. Senior Geologist, 1993 – 1999
Environmental Design Corporation, Vice President, 1992
Environmental Science & Engineering, Inc., Staff Geologist, 1991
Terracon Geotechnique, Ltd., Geologist, 1989 – 1991
Contract Positions, Various Locations, Geologist, 1988

## REGISTRATIONS

Certified Environmental Manager, Nevada, No. EM 2252
